

UNIVERSITY PLANS CONVOCATION FOR RECORD CLASS

Over 1200 Students Will Register In Arts and Science Summer School; More Scope to Be Offered in Courses

French School Presents Term, June to August

Over twelve hundred students, mostly veterans, will accelerate their studies during the summer months when they register for the 1945-46 session of the Arts and Science Summer School at 9.30 a.m. today, May 27. Lectures at McGill and Dawson College will commence on Thursday, May 30.

Inaugurated in 1942, the Arts and Science Summer School this year will offer more scope than ever before, under the new system of admission at three periods each calendar year. The twelve weeks of study will correspond to one of the two terms of each of the sessions required for the degrees of B.A., B.Com., and B.Sc.

Many Courses Offered

Anticipating a record summer school attendance, the University is offering a series of full and half courses ranging from Accountancy, through Botany, Chemistry, Law, Economics and Political Science, English, Mathematics, to Zoology. Lectures in all subjects will end on August 15, and examinations will commence on August 19.

French Summer School

Running parallel with the Arts and Science curricula, from June 27 to August 10, the French Summer School will again offer courses of lectures on French thought, literature and civilization. All courses are in three sections: Elementary, Intermediate and Advanced. The prerequisite for the Elementary section is two years of high-school French or the equivalent; for the Intermediate and Advanced Sections, a college or university standard is required.

Aside from the natural French environment of the Province of Quebec, the French Summer School is run on a strictly French basis. All courses are given in French, students are advised to stay in the French House (Douglas Hall), where they mingle freely with their instructors, nearly all of whom are French, and extracurricular activities provide further opportunity for the use of the language.

Special reduced railroad fares will be in effect for the Summer session. The Canadian Passenger Association has arranged that trips from Armstrong, Fort William, and stations east in Canada will be on the basis of one-way fare and one-third for the round trip.

Active Program Is Planned For Summer Session Students

This Summer the Students' Executive Council plans to make available for the first time, an organized program of activities for the students who are attending summer classes. A committee has been set up for this purpose under the chairmanship of Jon Ballon.

In the field of sports, the Students' Athletics Council are looking into the possibilities of making the following sports available to the students during the summer months at greatly reduced rates—the loss to be made good by the Council: swimming, tennis, baseball, track, yachting, boating and golf.

The Committee has also contacted most of the clubs and societies which function during the regular year with a view to having them extend their activities to cover the summer months. Such organizations as the Bridge Club, the Political Club, the Book Exchange, the Rifle Association, the M.O.C., the McGill Union, The McGill Daily, and many others would be in operation, provided enough student interest were shown and subject to the number of students registered for the summer classes.

Those clubs which have no member of their executive to help them get under way should be set up by the committee itself, if there were sufficient support, although this would be on a non-permanent basis for the summer months only.

Most of these activities will have to operate at a loss and provision would be made by the Council to subsidize them from the

Five Staff Members Retire This Session

Several members of the staff are retiring at the end of the present session. They are: J. P. Day, R. B. Angus, Professor and Chairman of the Department of Economics, George W. Scarth, Macdonald Professor of Botany, A. M. Thompson, Associate Professor of Classics, Miss V. B. A. Ramsay, Lecturer in the School for Teachers, and E. H. Mutton, Librarian, Macdonald College.

It is felt that their departure will leave gaps which will be difficult to fill and new appointments have not been announced as yet.

At a meeting of the Senate on Tuesday, May 21, a resolution was made congratulating the retiring members of the staff in appreciation of their long and devoted services.

Student Activities Fees paid by every McGill student.

The work of the committee is complicated by the fact that many students are out of town during the summer, and therefore it is appealing to any interested students to help. They should contact Jon Ballon, Mike Oliver, Paul Betts, Al Tunis, or Dave Townsend.

Red and White Society Reports On Year's Work

Plan New System Of Registration For Next Session

Although only organized this year, the Red and White Society of McGill University promises to take its place as one of the major groups on the campus. It was founded at the beginning of the session by the Students' Executive Council to promote campus spirit and to hold various activities throughout the year.

Approximately 900 students joined the Society at its inauguration and were divided into groups of 50. These groups were headed by an executive and took part in the numerous activities sponsored by the Society throughout the session. The season's events commenced with a torch-light parade preceding the McGill-Hornets football game, and a dance following it in the gymnasium.

A number of athletic dances highlighted the season's activities, involving a good deal of organizing and plain hard work on the part of the teams involved, under the leadership of the central committee. Although the seats were hard, all those who travelled on the chartered buses to Toronto found the trip well worth while inasmuch as this was the only McGill victory during the rugby season. The victory dance held at the gym after the hockey championship game was also a part of the Red and White Society's program for the year.

Revision of the registration scheme has been planned for the fall session when the Red and White Society will resume its activity. Under the new system, members will be able to indicate in which activities they would like to participate, e.g., organizing, publicity, poster-painting and decorating. Attempts will be made to allocate students to work in which they are most interested and for which they are most fitted.

Next year's activities should provide scope for any students capabilities. Already on the program are rallies and excursions, basketball and hockey games and a gala athletics festival towards the end of the session.

The first steps have been taken. The success of next year's Red and White Society depends not only upon careful organization by the retiring committee but upon the efforts of the members themselves. The task of the new Executive will be simplified because this year's Executive has already covered the groundwork. Similar problems will be faced next year and can be met by profiting by the mistakes made in the first season of the Society's activity.

GUESTS OF HONOUR

Dr. W. T. Percival
Director of Protestant Education,
Province of Quebec

Dr. J. S. Thomson
President,
University of Saskatchewan

A Message from the Principal

Congratulations to each one of you who is about to be invested with the degree that you have earned. They have not been easy years, those years that lie behind you, but I hope that the memory of them will always be pleasant. I hope that Convocation may not terminate either the friendships that you have made at college or your active interest in McGill University. It is a part of the strength of this University that the vast company of its graduates, scattered across the seven seas, are active members of our community and keenly interested in the welfare of McGill so that your participation in the life of this University should not end with the termination of your formal studies, and I can assure you that I and all my colleagues will be glad to renew old acquaintanceships whenever you return to the campus.

This period of reconstruction has presented a new challenge to the Universities of Canada. Student enrolment has increased and, for the teaching staff at least, the long summer vacations of yesteryear are no more than a delightful memory. While you are graduating at the formal ceremonies of Convocation, the laboratories and lecture rooms of this University will be thronged with students who are beginning the work of the summer term. Many of these are freshmen, but recently demobilized from active service, and I hope that you will bid them welcome warmly. They are your successors in academic life: in a few years they will be your colleagues in business and public affairs. Like you, they will have to face the difficult problems of Canadian life and of world affairs which must be solved by this generation if peace is to be attained and, as you go out to pioneer along the road which they will follow, I wish you the best of luck!

DR. F. CYRIL JAMES,
Principal and Vice-chancellor.

IN MEMORIAM

The late Morris W. Wilson, C.M.G., L.L.D., D.C.L.
Who Died at Royal Victoria Hospital on May 13th

Principal Will Confer Honors On Drs. Percival and Thomson; Sewell to Play at Grad Ball

Governor General Is a Patron Of Annual Event

Under the distinguished patronage of Their Excellencies the Governor General and the Viscountess Alexander of Tunis, the annual Convocation Ball is being held on Wednesday night in the Sir Arthur Currie Memorial Gymnasium.

Featuring Blake Sewell and his orchestra, the Ball will begin at 10 p.m., as the culmination of the day's activities.

Patrons

In addition to the Vice-Regal couple the list of patrons includes Principal and Mrs. F. C. James, Dean and Mrs. C. MacMillan, Dean and Mrs. J. J. O'Neill, Dean and Mrs. C. S. LeMesurier, Dean and Mrs. A. L. Walsh, Dean and Mrs. D. L. Thomson, Dean and Mrs. W. H. Brittain, Professor and Mrs. J. Bland, Dr. and Mrs. C. F. Beach, Miss M. Lindeburgh, Lt.-Col. R. H. Walker (D.S.O.), Mr. T. H. Matthews, Dr. Muriel Roscoe, Mr. and Mrs. E. A. Leslie, Dr. and Mrs. C. J. Tidmarsh, and Mrs. W. R. Kennedy.

There are still some tickets selling at the Union Tuck shop at \$5.00 per couple.

The Scarlet Key and Red Wing Societies will be present, and there will be a new table arrangement for the occasion. All tables must be reserved.

Chairman of the Dance Committee—Continued on Page Six

McGill Welcomes Summer Students At Meeting Today

Newcomers Acquainted By Tours and Dances In Planned Reception

Details of the Reception Program arranged for Summer students who are registering today were released over the weekend by the Committee in charge. While subject to certain last minute changes and final official confirmation, the program as outlined starts with the welcoming of the new students in Moyle Hall at 9.30 this morning.

Various problems of Registration are to be explained by Dr. Hatcher, Assistant Dean of the Faculty of Arts and Sciences, while Alex Ross, President of the McGill Students Society, will also address the gathering.

In addition, Jon Ballon and William Reid, Co-Chairmen of the Reception Committee, will explain in some detail the exact nature of the reception activities which will take place during the next few days and will present a full picture of the activities lined up for the summer program.

It has been stressed that the meeting today is one designed primarily to present fuller details of all these various activities and thus to answer any questions which may be confronting the summer students.

After the Moyle Hall meeting, registration will take place at the Sir Arthur Currie Gymnasium with the Scarlet Key directing the new students to the Gymnasium. As the students register, present plans call for the Scarlet Key to take the newcomers in groups of 15 or 20 on conducted tours of the campus.

A booth will be set up at the scene of the registration and members of major campus organizations will be present to offer advice and assistance on all aspects of college life. Continued on Page Six

HIS EXCELLENCY VISCOUNT ALEXANDER OF TUNIS, GOVERNOR-GENERAL OF CANADA, who received the honorary degree of Doctor of Laws at a special convocation held on the campus of McGill University last Wednesday. At the convocation 18 students and five staff members were invested by His Excellency with honors won on the battlefield. For full details see page five.

Maj. Gen. Price Is Acclaimed Legion President

Maj.-Gen. C. B. Price of Montreal, was elected president of the Canadian Legion, at a convention held in Quebec, Thursday, May 23. There was an overwhelming vote on the first ballot, and then the

MAJ.-GEN. C. B. PRICE

other three candidates withdrew, thus making Gen. Price president by unanimous vote.

A veteran of two wars, Gen. Price was dominion first vice-president of the Legion prior to

Continued on Page Two

Service, Dinners, Garden Party Are Scheduled

Wednesday morning at 10.30 a record number of degrees will be presented at the Convocation to be held out of doors in the lower campus, or, failing good weather, in the Sir Arthur Currie Memorial Gymnasium.

The Guests of Honor, who will receive the honorary degrees of Doctor of Laws, are two outstanding educationists, Dr. W. P. Percival, director of Protestant education in this province, and Dr. J. S. Thomson, president of the University of Saskatchewan, who will deliver the convocation address.

The Convocation is the climax in a series of receptions being given for graduating students, which included a Baccalaureate Service in Moyle Hall on Sunday morning conducted by Dr. W. A. Ferguson, two receptions at Royal Victoria College for women graduates, a McGill Night at Belmont Park, students vs. professors sports events on Tuesday evening, class dinners, and finally the Convocation Ball Wednesday night.

635 successful candidates will receive degree and diplomas, representing an increase over last year's graduating class of 171 students. Students from all parts of Canada and the world are included.

Dr. W. P. Percival

Dr. Percival, who is deputy minister of Education and director of Protestant education of Quebec, has held many prominent positions in education, including that of president of the Canada-Newfoundland Education Association and editor of the Teachers' Magazine. Born in this province, he graduated from McGill with a B.A. degree with honors, and from Columbia University with M.A. and Ph.D. degrees.

Dr. J. S. Thomson

Dr. Thomson, who will deliver the Convocation address, was born in Scotland where he graduated from the University of Glasgow, and served as clergyman in the Church of Scotland and professor of systematic theology and philosophy of religion. During the war he served for a term as general manager of the C.B.C. while on leave of absence as president of the University of Saskatchewan.

Immediately following Convocation there will be a tree-planting

INSTRUCTIONS TO GRADUATES

Candidates for degrees must sign the register of graduates in the Registrar's Office before Convocation Day.

Graduating students do not need tickets for themselves, but they are entitled to two tickets which may be obtained at the Registrar's office on and after Wednesday, May 22. Additional tickets admitting to the Campus but not to the Gymnasium may be obtained at the same time.

At Convocation, candidates for degrees must wear gowns, hoods, and caps proper to the degrees which they are to receive. These may be rented at the Bursar's Office up to 5 p.m. on May 28 at the following rates: Gowns, \$1.00; Hoods, \$1.50; Caps, 50 cents. These must be returned immediately after Convocation.

If fine, Convocation will be held on the Campus, and the Convocation Procession will assemble outside the Arts Building at 9.45 a.m.

If wet, Convocation will be held in the Sir Arthur Currie Memorial Gymnasium Armory; the Procession will assemble at 9.45 a.m. in a tent to be erected to the east of the building.

TIME-TABLE OF ACTIVITIES

Sunday, May 26:

11.00 a.m.—Baccalaureate Service

Moyle Hall

4.00 to 6.00 p.m.—At Home, Royal Victoria College

For all women graduates and their parents

Monday, May 27:

4.00 to 6.00 p.m.—Tea, McGill Alumni Association

For women graduates, Royal Victoria College

8.30 p.m.—McGill Night at Belmont Park

Reserved street-cars will leave from corner of Beaver Hall Hill and Dorchester at 7.45 p.m.

Tuesday, May 28:

2.00 p.m.—Golf, Hampstead Golf Club

Tennis, McTavish Courts

7.00 p.m.—Class Dinners

Wednesday, May 29:

10.30 a.m.—Convocation Ceremony

Campus if fine—Gym if wet

12.30 p.m.—Tree-planting

lower Campus

4.00 p.m.—The Principal's Garden Party

lower Campus

10.00 p.m.—Convocation Ball

Vol. XXXV, No. 100

Grandescant Aucta Labore!

In the words of the principal and vice-chancellor, speaking at the special convocation held last week in honor of the Governor-General of Canada, "sunshine and shadow" are indeed "mingled in our thoughts" as we assemble for the convocation ceremonies this year.

Annually the convocation exercises are an occasion for much festivity at McGill. Hundreds of young men and women close one of the most important and often one of the most memorable chapters of their lives, when they pass the dignitaries of the University, stride upon a platform—and bend their heads to receive their academic degrees... from McGill's Chancellor.

Yes, it is the Chancellor, the highest official of the University, who sends the graduate on his way into the world... and this year, with indeed many a shadow among the sunshine, we gather for Convocation—without a Chancellor.

We know that we speak for every student at this University in expressing our heartfelt grief and shock at the death of the man who, for such a lamentably short period of time guided the destinies of this great institution.

We all know how deeply Chancellor Wilson was concerned with the progress and good work of McGill. We feel sure that, had it been given him to sit in his accustomed place at this week's Convocation to bid farewell to the more than 600 graduates who are leaving us this year, the Chancellor would have been well pleased; for once again young men and women, strengthened with the knowledge, the learning and the background of an academic career are leaving us to add further glory to the name of McGill in many lands.

In every way this, our first post-war year has been most eventful. We have seen the opening of Dawson College in St. John, and with it the immense effort by the University to accommodate and instruct the many hundreds of veteran students who have returned to us. McGill has seen the beginning of the construction of Canada's first cyclotron, and with it another step forward for this university and scientific research in this country.

In the extra-curricular field there have also been many activities: intercollegiate sports have come back, and McGill emerged victor in several fields, notably of course the hockey championship, when a thrilling game against Toronto climaxed an exciting season. The Debating Union and many other clubs and societies have been most active this year, and last but certainly not least, a series of fiery meetings saw the constitution of the Students' Society revised and brought up to date.

We hope that this year of many events has been fruitful and memorable for the class of '46. We hope that they will go out into the world, strengthened by many a cherished memory and broadened in mind and outlook by the influences of academic life.

As they leave us, may they remember Morris Wilson, the great educator and friend

who left his high station so prematurely and was thus prevented from putting the crown on their academic careers.

In the name of every member of the university these graduates leave behind, and too, in memory of the late Chancellor, may we wish the class of '46 God speed, the very best of everything and... Grandescant Aucta Labore! — C.W.

A Needed Precedent

Once again McGill made headline news, when last week the University presented Lord Alexander with the first honorary academic degree to be accorded to the new Governor-General in Canada. Every student and graduate of McGill felt proud that such a high honor and recognition was accorded the University.

On the occasion of this special Convocation another historic event took place, when His Excellency held a special investiture following Convocation, and presented some twenty military decorations to members of the staff and students. This was the first time that such an investiture was held, and it proved to be a most interesting spectacle for those who had never been privileged to attend the secluded investiture of Buckingham Palace and Rideau Hall.

We were glad to see that Col. Walker, the new Officer Commanding the McGill Contingent C.O.T.C. was invested with the Distinguished Service Order at the above-mentioned ceremony, and hope that a man with such an outstanding war record will do much to keep up the fine traditions of McGill's C.O.T.C.

Seeing the ceremony last week made us wonder why hitherto similar occasions have been kept almost secret. We felt that those who received their decorations last Wednesday surely had far more satisfaction from such an impressive and public ceremony than if they had been allowed to appear among us mysteriously one day with "D.S.O." or "M.C." written after their names. We believe that no publicity should be spared when the heroes of war or peace are presented with their rewards from the Crown, for beyond the capital letters behind their names they really do not receive much compensation or recognition. We are glad that a precedent was set at McGill last week, and hope that such ceremonies will henceforth be repeated. — C.W.

Distinguished Graduates

The trend from arms to education, so apparent within the past year when the influx of veterans swelled the student bodies of the universities over Canada and the United States and led thinking men to review the established academic standards and their worth to the community, makes it truly fitting that McGill should honor at its 1946 Spring Convocation two of the most outstanding members in the Canadian field of education. Both Dr. J. S. Thomson and Dr. W. P. Percival, who will receive the honorary degrees of Doctor of Laws, have had long and inspiring careers, working towards the goal of improvement of education not only on a national scale but on an international one as well.

Dr. Thomson, who will deliver the Convocation address, is at present president of the University of Saskatchewan, a progressive sister college which has received able leadership at his hands. On leave of absence from Saskatchewan, Dr. Thomson served a term as general manager of the Canadian Broadcasting Corporation, and upon the return to his academic post, was elected president of the Canadian Universities Conference in recognition of his outstanding achievements. He continues to hold the latter post at the present time, as well as remaining in office as the president of the University of Saskatchewan.

Director of Protestant education in the province of Quebec since 1930 and material contributor to the progress of education, Dr. Percival, the second recipient of an honorary degree, has had a distinguished career as an academic leader and has won the respect and admiration of all classes of the community. Along with his academic accomplishments, Dr. Percival has also won recognition for his literary endeavors and his public speaking ability; among his books are his latest, "The Lure of Montreal," and "The Lure of Quebec" and "Life in School."

Dr. Percival has a native interest in the problem of Protestant education in Quebec, having been born here. He received a B.A. from McGill, with honors, and then proceeded with post-graduate work at Columbia where he received his M.A. and Ph.D. degrees. As a practical course in preparation for his present office, he served as a high school principal, a professor of mathematics at Macdonald College and professor of education at State Teachers College in Indiana, Pa. Since his appointment to the Directorship, several changes have been put into effect as suggested in his report of a national survey of education.

So, the qualifications of both men for their awards is of the highest. We extend to them a hearty welcome and wish them well as members of McGill's distinguished graduate body. — A. K.

Drama . . . Two Plays . . . A Film

—by Dusty Vineberg

Combination Proves Success

Montreal is now in an exciting stage of cultural growth when competent musical or dramatic performances receive a good deal of attention because the calendar is not crowded with them. In a well developed cultural centre, such events may pass without attracting undue notice, but, while Montreal may no longer be described as "dramatically barren", opportunities for development seem infinite. It is scarcely remarkable, then, that such a production as *King Lear*, worthy, certainly, of classification on a high professional level, set Montreal on its cultural ear, and has caused a furore, heard even in the hard-to-crash pages of *Variety*, the theatrical *Vogue* of American show business.

The Shakespeare Society of Montreal marked its inception one year ago with a production of *Much Ado About Nothing*, which was, at least, a good effort in locally unexplored field. But enjoyable as it was, neither acting nor direction were designated as professional, and it was chiefly remarkable for Herbert Whittaker's excellent staging, which more than made the most of necessity (Moyses Hall). Since last year, however, Montreal has seen some exceptionally good theatre. Chief among our newly discovered assets is Pierre Dagenais, who directed an inspired production of Jean Paul Sartre's *Les Huis Clos*. It seems to have been the collaboration of Dagenais and Herbert Whittaker, Montreal's noted stage designer and critic, which resulted in the outstanding success of *King Lear*.

The production of *King Lear*, it is generally conceded, is significant. If the entire personnel responsible for it remain in Canada, it is likely that it will stand as one of the milestones in a long series of future dramatic successes. If, on the other hand, such a course does not prove reasonably gratifying or lucrative, *Lear* may well remain in isolation as an impressive reminder of talent and opportunity which Canada lost, once again, to the keener appreciation of the American theatre-going public. That "the Montreal theatre is more than ready to establish itself on a professional basis" seems to be the feeling of Montrealers who were surprised into awareness of Canadian dramatic possibilities by *King Lear*. If a national theatre is to be established, they feel that the time is now ripe, and such an institution is imperative if we are to encourage an indigenous product. It is definitely time we came of age culturally.

In the past Canadian apologists have bemoaned Canada's disadvantage due to the inability of our comparatively small population to support, on a professional basis, the writers, actors, artists, technicians, and all the other highly specialized workers which pursuit of the arts entails. While it is certainly true that we have not as great an audience, nor as large a pool of creative resources as the American theatre, the reception accorded *King Lear* seems to indicate rather forcibly that we are ready and willing to support these specialists, and it is high time that we began to build a Canadian stage.

Creative Writing Prize Awarded

Vivian Fine and Florence Trotter won this year's Chester McNaughton Prize for the best piece of creative writing done by a student in the past year. The Prize was awarded for Vivian Fine's Radio Sketch, "Not All A Dream," and Florence Trotter's Short Story, "Snowfall."

Honorable Mentions were awarded to Florence Trotter for her second entry, and to Alice Bennett, Brenda Dick and Gloria Escoffery.

Novelist Graduate

Among the graduates who will receive the degree of Master of Arts at Wednesday's Convocation is Constance Beresford-Howe, who, just a year ago, received her B.A. with the Shakespeare Gold Medal, and the Peterson Memorial Prize for creative writing.

For her first novel, "The Unreasoning Heart," she was awarded the Dodd Mead Intercollegiate Fellowship for the best novel written by a North American University student. Published this spring, it has aroused widespread comment and favorable reviews.

Miss Beresford-Howe is currently engaged on her second novel, which deals with college life. She was an assistant in the Department of English during the past session.

Good Production Of Symbolic Play

The 100th. major M.R.T. production, was, in spite of the play itself, a thoroughly enjoyable one. *The Corn Is Green* demanded very little in imagination or interpretation from the audience, which may have been the reason why we felt that we had been trapped into enjoying ourselves so much. The play is concerned with a struggle around a principle rather than a vivid picture of Welsh coal miners, and thereby loses an important human value. Morgan Evans is a symbol of a wrong, which in his case is righted, but except for interpolations in the Welsh language, this play might be peopled by the downtrodden and exploited poor of very many countries.

Its other value, which hinges around the destructive, machine-like molding of Morgan's Evan's "brilliantly receptive mind", by a spinster with the reforming urge was not strongly developed. However, while never demonstrating affection, Miss Lewis chose to give a sympathetic interpretation of Miss Moffat, which detracted from the tenacity of the conflict, and left the actors to depend on facile tear jerking.

Doreen Lewis play the middle-aged spinster, Miss Moffat, who settles down in a cottage which she has inherited, in Wales. Appalled by the misery, poverty, and literacy of the miners among whom she finds herself, she starts a school, opposed by the mine authorities, the local pub owners, and the squire (Chester Le Maistre), and discovers among her pupils a young Welsh miner (Tim Whelan) whom she believes possesses the potentials of greatness. His struggle with himself, and their concerted efforts to win him a scholarship to Oxford are finally successful.

The Daily's laurels on this occasion go to Chester Le Maistre for his delightful impersonation of the Squire, to Madeleine Sherwood as Bessie Watly, to Tim Whelan as Morgan Evans, and to Mulvany Gray as Mrs. Watly. Bessie Watly was a difficult role, calling for Bessie's development from a deceitful, resentful child to "a lady of doubtful virtue". This type of gradual change, from childhood to adulthood, is usually rather badly done, but Miss Sherwood was far better than adequate, and it is to be hoped that she will appear very frequently in future M.R.T. performances.

Tim Whelan as Morgan Evans (We look back with pleasure to his recitation of the prologue of "She Stoops to Conquer") gave a uniformly good performance. He and several other members of the cast, notably Roy Malcourenne as John Goronwy Jones, and Eric Donkin as Idwal Morris, had a difficult job to do with regard to pronunciation and Welsh speech, and did it remarkably well. Mulvany Gray as Mrs. Watly, played her part with the right degree of abandon, and the setting by Hans Berends was good, as always.

French Picture Honest, Truthful

Notable for its simplicity and its impressive acting was the French film which was in its fifth week at the new Cinema de Paris at the time we went to press. During the past month, people have queued up for every show, waiting to see "Fille de Puisatier."

Filed during the war, its imperfections are attributable to inadequate facilities, and not to either the story, or the impeccable acting of its two famous stars, who are familiar to the French theatre as Fernandel and Raimu. A comparable moving picture has never been shown in Montreal. Artificiality was forsaken for traditional French realism. French treatment differs from the sophisticated interpretation which we habitually give the same situation. The film does not admit "a problem". There is no problem; there is only what happens in life.

Briefly, the story concerns a young paysanne who gives birth to an illegitimate child. There is a notable lack of glamorizing motives, a unique treatment in that 'drama' as such is forsaken, and the heights and depths of emotions are not sounded. The visit of the girl, Patricia, and her father, played by Raimu, to parents of the child's father was one of the high points of the film, rendered powerfully moving by the dignity and pathos with which Raimu played the role. Fernandel played the part of Patricia's suitor with the burlesque for which he is famous.

Large Crowds Mourn Loss Of McGill Chancellor

Impressive Rites Mark Ceremony At Wilson Funeral

A simple, impressive service attended by a huge throng which overflowed onto St. Catherine Street outside the St. James United Church marked the final tribute paid by a saddened Canada to a great and distinguished citizen, Morris W. Wilson, Chancellor of McGill University and president of the Royal Bank of Canada on Friday afternoon, May 17.

Following a short ceremony at his late residence, attended by the immediate family and a few close friends, the body was moved to the flower-filled Church where the regular service was conducted by the minister, Rev. Dr. F. W. Norwood. The eulogy delivered recalled the high Christian character and the philanthropic habits of the late Chancellor as well as the many services rendered to the community, the country and the Empire by the man who was esteemed and beloved by all who knew him and who came in contact with him.

The service concluded with another prayer and the hymn, "Unto the Hills do I lift up my longing eyes" and as the mourners assembled to follow the casket, appropriate organ music was played by the Church organist and choir-master, Mr. Warner Norman.

Among the many floral tributes filling all available space before the altar, two in particular were eye-catching—a huge basket from the Royal Bank, and a McGill crest of red carnations and white sweet peas with the crown, book and martlets clearly outlined.

The chief mourners were his widow, the former Clara Leone Mason of Lunenburg, N.S. and a daughter, Miss Betty Wilson, of Montreal, a brother, Dean R. F. L. Wilson of the University of Alberta two sisters, Mrs. Amy Butler of Lunenburg and Mrs. E. A. Lees of Oyma, B.C. and a sister-in-law, Mrs. L. F. Gibson.

The honorary pall bearers were W. F. Angus, J. W. McConnell, Dr. F. Cyril James, Dr. W. W. Chipman, D. C. Coleman, Gordon W. MacDougall, Hon. C. A. Dunning, James Wilson, A. B. Wood, S. G. Dobson, Harold M. Long, J. D. Johnson, George H. Montgomery, B. L. Mitchell, Ray Lawson, Sir James Dunn, Allan Aiken, Meredith Smith, Wilbert Howard, Harry W. Thorp, Gordon Hyde, Dr. G. E. Tremble, Dr. John C. Armour, Dr. G. R. Brown, Fred Walls, James Muir, George W. Spinney, G. F. Towers, Col. Gerald Binks, R. B. Jellett, G. H. Duggan, Beaudry Leman, Victor M. Dury, S. R. Noble, J. W. Beaton, E. P. Taylor, Henry Joseph and Major J. A. Ewing.

Hon. Ernest Bertrand, Minister of Fisheries, represented Rt. Hon. (Continued on Page 10.)

TRIBUTE

DR. F. CYRIL JAMES
Principal McGill University

Morris Wilson was unanimously elected chancellor during the difficult days of war when McGill University faced a series of problems to which the normal traditions of academic life offered no obvious solution. He approached the task with that clarity of vision and patient mastery of details which had won for him a high place in this Dominion, and the esteem of all who knew him intimately. It was during his term of office that a campaign brought \$7,000,000 to the endowments of the University, while the gifts of Mr. Duggan's house, the acquisition of the Stoneycroft Farm and the construction of the Cyclotron are but a few examples of the developments that occurred within the University under his leadership. In the creation of Dawson College he played an active part, and he was profoundly interested in every detail of the program designed to promote educational facilities for men and women from the armed services.

The greatness of his achievement measures the greatness of the loss that McGill University—and indeed all Canada—has suffered. Leadership is precious in this time of troubles, and his mind had steadily been scanning the road ahead to mark out the pathway of our progress during the years of reconstruction.

The bereavement that we have suffered in his death is, however, deeper than any simple measure of his greatness can comprehend. He was a warm-hearted friend and a loyal colleague who gave unstintingly of his time and energy to all of those who went to him for aid. We went out from his company stronger because of his own strength, and wiser in his counsel, so that during all the years which lie ahead we shall remember in the gathering shades of loneliness the comfort that was ours when he walked beside us.

IN MEMORIAM

September 16, 1944, was an historic occasion in the annals of McGill University. At that time two distinguished men received honorary degrees in McGill's only convocation that has been held outside Montreal. Taking place on the terrace of the Citadel at Quebec, in the open air, Winston Churchill and Franklin D. Roosevelt received their honorary degrees from the hands of Chancellor MORRIS W. WILSON, presiding officer at the unique ceremony.

Seated, left to right, in front of Morris Wilson, are J. W. McConnell, NEILL, Governor of the University; Wartime PRIME MINISTER CHURCHILL; T. H. MATTHEWS, University Registrar, who is placing the hood about the shoulders of PRESIDENT ROOSEVELT; the EARL OF ATHLONE, former Governor-General of Canada and Visitor to the University; Mr. Wilson, and DR. F. CYRIL JAMES, Principal and Vice-Chancellor of McGill.

DR. F. CYRIL JAMES, Principal and Vice-Chancellor of McGill University, is shown above with other honorary pallbearers and chief mourners during the funeral procession along St. Catherine street. Reading from left to right, the honorary pallbearers are: Ray Lawson; Hon. C. A. Dunning; James Muir; George Montgomery, K.C., Chancellor of Bishop's College University; Dr. James; D. C. Coleman; Dr. W. W. Chipman; S. R. Dobson and W. F. Angus. Chief mourners pictured are: L. F. Gibson and Dr. Ray Lawson. Not pictured are: Dr. R. F. L. Wilson, Dean of the Faculty of Science of the University of Alberta, a brother; Harold M. Long.

The late Chancellor, MORRIS W. WILSON (second from left) greeting students at the reception held in the gym last fall during Freshman week.

Morris W. Wilson Mourned As Stalwart, Likable Figure

Loss to University, Community at Large Deeply Felt; Rose From Humble Start to Achieve National Prominence

Written especially for The Daily by
Victor C. Goldbloom, M.D.

On Monday evening, May 13, there were few among the members and associates of McGill University who knew of the actual whereabouts of their Chancellor. To student and professor, as to any random pedestrian on the campus, he was undoubtedly busy in methodical, unhurried arrangements for the Special Convocation at which he would confer an honorary degree on Canada's new Governor-General. But even to those few who were aware of his illness, it came as a deep and incredible shock that the morning papers of Tuesday, May 14, carried news of the death during the night of Morris Watson Wilson, CMG, LL.D., D.C.L., in the Ross Memorial Pavilion of the Royal Victoria hospital, at the untimely age of sixty-three.

From every quarter of the land the tributes flooded in—sincere, plain-spoken words of appreciation and regret, unmarred by the embarrassment of any honour not paid him in his lifetime. "Perhaps no Canadian businessman was more widely known or more highly respected," said the Honourable C. D. Howe; not only the world of finance, but the world of education too concurred. The sense of personal loss, forever the final measure of human stature, was not limited to a small, sorrowing family.

To many a student, too, the loss was not merely institutional. Many had known him personally, taking ready liking to this big, genial, unpretentious man for the charm of his direct manner and his appreciative interest in student affairs. Many erstwhile undergraduates, whose only encounters with him had been a fleeting moment on the Convocation rostrum, tried hard to recapture the unfeigned capsule of greeting with which he presented every degree. To the campus, he was an awfully nice guy.

Biographically, his story was eventful if unromantic. He was born in the busy fishing town of Lunenburg, N.S., and there received a high-school education. Hoping to enter university, he looked forward to a career in medicine or law, under the aegis of an uncle in either profession. His father, however, had somewhat different ambitions for him, and presented him forthwith with a junior clerkship in the Lunenburg branch of the old Merchants' Bank of Halifax—thus starting him forcibly on his unbroken upward course in the organization which was later to assume the broader name of The Royal Bank of Canada.

Step by step, in city after city, he made his name and established his prosperity; and in 1934, thirty-seven years after he entered the organization, he became its President and Managing Director. Responsibilities of many kinds flowed to him there, and he became actively associated with such varied enterprises as the Canadian Pacific Railway, the Montreal Trust Company, the Royal Victoria Hospital, and the Welfare Federation of Montreal. These were but a few of the interests to which he gave continual, uncomplaining service and support.

With the advent of war, his tasks became doubled; and in 1940 he claimed leave of absence from his bank to serve as assistant to Lord Beaverbrook, in charge of Canadian and American aircraft production for the harried RAF. The following year he was made vice-chairman and then chairman of the British Supply Council in North America, from which he finally resigned in April 1942 to resume his civilian work. Due recognition of his outstanding military contribution was his subsequent appointment as a Companion of the Order of St. Michael and St. George, on New Year's Day of 1944.

When McGill University came to choose a successor for the Chancellorship to the late Sir Edward Beatty, it was by unanimous vote of the Board of Governors that the black-and-gold mantle fell on the shoulders of Morris Wilson, himself a Governor since 1937.

He was installed at a Special Convocation on December 10, 1943, receiving an honorary LL.D. and making a warm, clear-thinking inaugural address. From the first he took a thorough interest in student scholarship, student activities, and student problems. He attended campus functions, supported student enterprises, and was always approachable to any student visitor. Had he been spared a full span of years, his popularity on campus might well have known no bounds.

His love for McGill, born of his boyhood ambition for a professional education there, was as naturally spontaneous as the filial affection of any alumnus. It was always with reverent personal pride that he spoke of the university; and it was in reference to himself, and to his honorary membership in the Graduates' Society, that he said, "Every graduate joins a great fellowship, because McGill lives in the hearts and minds of thousands of men and women throughout the world." His devotion to that fellowship was constantly, unaffectedly in evidence.

In his spectacular transition from junior clerk to financial magnate and university chancellor, he had to learn a tremendous amount in the ungenerous school of experience. But to the last day of his life, he was a man who never forgot, and was never too proud, to learn. McGill will mourn Morris W. Wilson far longer than it had opportunity to honour his forthright leadership; mourn him as a friend and as a mentor, in humility no greater than his own.

LATE GOVERNORS

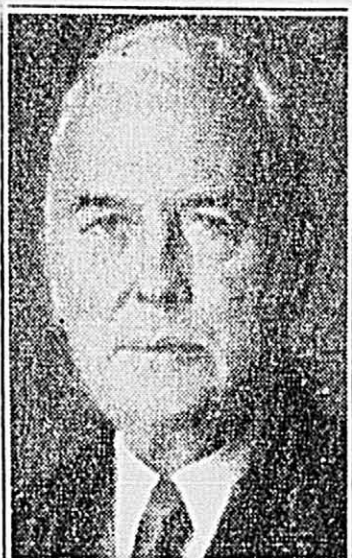

S. G. BLAYLOCK

One of Canada's leading citizens, a governor of McGill University, chairman and one time President of the Consolidated Mining and Smelting Company of Canada Limited Selwyn Gwilym Blaylock died at his home at Trail, B.C. last November 19, 1945. He was in his 67th year.

Born in Paspébiac, Quebec, February 18, 1879, Selwyn Blaylock had received the honorary degree of Doctor of Laws from both McGill and Alberta Universities, and was also Commander of the Venerable order of St. John of Jerusalem.

Educated at Bishop's College, Lennoxville, Que., and McGill University, he graduated in metallurgy from the latter in 1899. Among the honors which he won in metallurgy are: the McCharles prize from the University of Toronto in 1942; the James Douglas medal from the American Institute of Mining and Metallurgy in 1938; and the gold medal from the Institution of Mining and Metallurgy, London, in 1939.

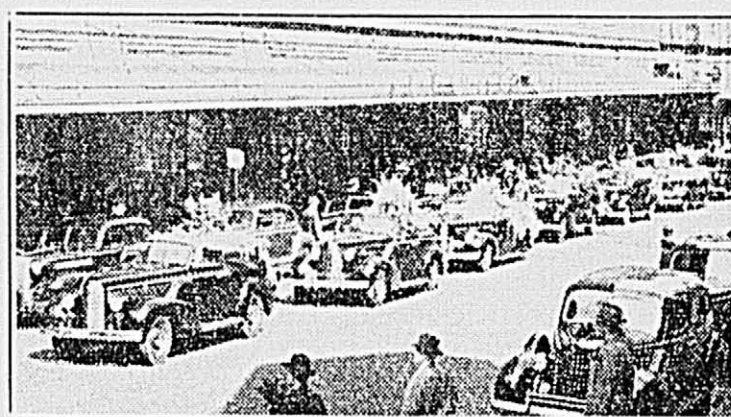

F. N. SOUTHAM

Two months ago, on Monday, March 18, Frederick Neil Southam, governor of McGill University and chairman of the board of the Southam Publishing Co. Ltd., died at his home in Montreal at the age of 77 years.

Among Canada's best known figures in the Publishing business, Frederick Southam headed a company controlling one of the largest newspaper groups in the Dominion. Born December 10, 1869 in London Ont., he came to Montreal at the age of 20, having started in the publishing business under his father at the Hamilton Spectator.

Awarded the Order of the British Empire for his service in the Munitions Department in the first Great War, Mr. Southam was also a governor of the Montreal General Hospital and the Children's Memorial Hospital, as well as a member of the corporation of Bishop's College.

Of the six daily newspapers which he owned, the Ottawa Citizen, the Hamilton Spectator, the Winnipeg Tribune and the Vancouver Province are prominent.

Above are seven of the eight carloads of flowers which preceded the hearse from the home of the late Chancellor to the St. James United Church, where the service was read. These represent only a part of the many floral tributes received by Mr. Wilson's family.

University Officials Pay Tribute to Late Chancellor

It was not granted to us that Morris Watson Wilson should serve for many years as Chancellor of McGill University, but his devotion to that high office was the culmination of his previous service as a member of the Board of Governors.

The years of war, during which he presided over the destinies of McGill, offered the challenge of many novel problems, but he brought to the solution of those problems the splendid qualities of mind and heart that had already won for him an outstanding place within the Dominion of Canada and abroad. Warm-hearted friendship to his colleagues he gave, and unswerving loyalty to McGill. Clarity of thought, and unlimited patience in the slow mastery of details gave him an understanding of the problems that confronted

the University, while the counsel born of his understanding was enriched by the vision of ideals still to be attained. In order that McGill might steadily come closer to those ideals, he gave unstintingly of his time and energy.

Each member of this Board of Governors, and of the Senate, feels as a personal loss the bereavement that McGill has suffered, and we shall walk the pathway of the years that lie ahead in greater loneliness because he is not with us.

We are conscious, moreover, of the even greater loss that has fallen upon the members of his immediate family, and while inscribing this resolution upon the records of the University we desire to express to Mrs. Wilson, to his daughter, and to each of his relatives, our deepest sympathy in this hour of their bereavement.

The late CHANCELLOR MORRIS W. WILSON receiving an honorary Doctor of Laws degree from Dr. F. Cyril James at a special convocation for Medical and Dental students held Friday, December 10, 1943. Mr. Wilson was appointed Chancellor of McGill University by the Board of Governors on November 11, 1943.

In the words of the Rev. Dr. F. W. Norwood, minister of St. James Church, who conducted the late chancellor's burial service—"This, I am assured by some who knew him best, was of all hymns, his favorite—"

Twilight and evening bell,
And after that the dark!
And may there be no sadness of farewell,
When I embark.
For, though from out our bourne of time and place
The flood may bear me far,
I hope to see my Pilot face to face
When I have crossed the bar.

FACULTY DEATHS

Professor H. F. Armstrong who died at his home in Como Quebec,

on April 16 of this year. Professor Armstrong was born on May 3, 1868, in Sunderland, Durham, England, and came to McGill in August 1896 as Assistant Professor of Free Hand Drawing and Descriptive Geometry with the School of Applied Science.

He received his M.A. at McGill and in 1902 was made an assistant professor. He became a full professor in 1923 and in August 31, 1936 he retired with the title of Emeritus Professor.

Another one-time member of the McGill staff, Miss Clara Lichenstein former Vice Director of the Conservatorium of Music, died on May 2, in England. She was born in Budapest Hungary in October, 1863, and was a Diplomee of the Royal Academy of Music of Budapest.

In 1899 she came to McGill as Resident Instructor of Music at R.V.C. and was connected with the Faculty of Music until her retirement on August 1, 1929. She was then an Associate Professor of Music and Vice Director of the Conservatorium.

635 WILL RECEIVE DEGREES WEDNESDAY

The following students have met all the requirements of their respective faculties and thereby are entitled to receive a degree from the university:

FACULTY OF ARTS AND SCIENCE

Passed For the Degree of B.A. Men

Appleby, Leonard Willis, Great Distinction in the General Course; Belle, Francis Joseph, Halet, Que.; Brecher, Michael, First Class Honors in Economics and Political Science, the Allen Oliver Gold Medal, and the Allen Oliver Fellowship; Burke, John Peter, Ottawa, Ont.

Campbell, Donald Erskine, Pembroke, Bermuda; Cohen, Ralph Arnold; Coore, David Hilton, Jamaica, B.W.I., First Class Honors in Economics and Philosophy; Cox, Robert Warburton, First Class Honors in History and the Lieutenant-Governor's Silver Medal for History; Cree, George Charles; Cunningham, John, Berks, England, Distinction in the General Course.

Fraser, Alistair Graeme, Westminster.

Garrett, Keith Colin, McMasterville, Que.; Gilmeister, Wilfrid, Outremont; Gudmundson, Magni, Regjavik, Iceland, Second Class Honors in Economics and Political Science; Goldman, Aaron Harold.

Haddad, Emile Jacob; Heaman, Samuel George; Howard, Kenneth Simpson.

Johnson, William Joseph, Brantford, Ont., First Class Honors in Philosophy; Johnston, Harcourt, Templeton, Kemptville, Ont.; Jones, Herbert Barton; Joyce, Robert Kevin, First Class Honors in Economics and Political Science.

Kimberly, Ralph John.

Lawler, Frank Roberts.

Olsen, Harold.

Preziosi, Aristide Thomas.

Robillard, Francis Albert; Rossy, Edward, Second Class Honors in Economics and Political Science.

Shatner, Conrad Bernard; Solomon, Elie, Second Class Honors in Economics and Political Science.

Stuart, Duncan Northcott; Summerskill, John Henry; Swager, Alvin Gordon, Magog, Que., second Class Honors in History.

Thornhill, Herbert Symonds.

Walker, Herbert Samuel, Jamaica, B.W.I., First Class Honors in Economics and Political Science.

Watson, Arthur Wellington; Watson, Norman Lorne.

Zakuta, Leo, First Class Honors in Sociology; Zurcher, Victor K., New York, N.Y.

Passed For The Degree of B.A. Women

Anderson, Ruth Wilma Patricia, St. Eugene, Ont.; Atkinson, Jeannie Bryce; Beardmore, Frances Seymour; Beatty, Jane Elizabeth; second class honors in German; Beatty, Joyce Winifred; Beatty, Rosemond Virginia, Toronto, Ont.; first class honors in economics and political science; Beaulieu, Mary Elizabeth; Bell, Mary Anita; Bendzalis, Monica; Bennett, Alice Melanie, first class honors in English language and literature and the Peterson Memorial Prize for creative writing; Boomhour, Alice Mildred; Brott, Rosalind Phyllis; Brown, Diana Betty; Burke, Rita Mary; Jollette, Que.

Campbell, Janet Moira; Chalmers, Naomi; Cole, Shirley Margaret; Portland, Maine; Connal, Elizabeth Jean; Cooper, Jane; Curry, Alayne Siroon, Halifax, N.S.; Curtis, Phyllis Selina King; distinction in the general course; Cuttle, Mary Margaret.

Dixon, Janet Elizabeth; Dougherty, Grace Huberta.

Elliott, Constance Joann; Engler, Shirley; Excoffrey, Gloria Blanche, Jamaica, B.W.I.

Faerman, Pola Janet; Findlay, Helen Maude; Fine, Vivian Rhoda; great distinction in the general course; Finnmore, Margaret Borden; Finnmore, Mary Allison; Fisher, Margaret Claire; Furniss, Monica N.

Gammell, Marna Avondale; Gibb, Elizabeth; Gilekman, Joyce, Ottawa, Ont.; Graw, Barbara Jean Patricia; Gross, Shirley Annette.

Hankinson, Ruth Adeline, second class honors in English language and literature; Hanna, Eleanor Gordon; Harrington, Eileen Marie, New York, U.S.A.; Harris, Helen Ruth, Magog, Que., second class honors in French; Hood, Janet Macmillan.

Ingram, Avis Evelyn, Jamaica, B.W.I., second class honors in French; Israel, Phyllis Florence Naimor.

Jamieson, Alexis Jean, Hamilton, Ont.; second class honors in History; Jones, Eleanor Poor, Swampscott, Mass.

Kaplan, Laura; Kellier, Avril Jean; Kelen, Madeline Hermine; Kennedy, Margaret Phyllis; Klein, Miriam; Knowles, Jean Annabel.

Latter, Elizabeth Macleod, Quebec City, Que.; Laurin, Martha Gertrude; Layton, Patricia Louise; Lazar, Helen, second class honors in Psychology; Louie, Joan, second class honors in Sociology; Lozinski, Joyce Natalie.

MacIntosh, Gertrude Allinson, Haverford, Pa.; MacLaren, Elizabeth Wright; MacLean, Mary Maxwell; MacLure, Nancy Montgomerie; MacMillan, Marjorie Florence; MacQueen, Marjorie Williamson; MacRae, Shirley, Moose Creek, Ont., distinction in the General Course; Magid, Nora Louise, first class honors in English Language and Literature and the Shakespeare Gold Medal; McCammon, Violet Leslie, second class honors in Sociology;

McCombe, Margery Orme; Mercer, Sheila Margaret Brigit, second class honors in French and the Henry Chapman Prize; Miller, Isabel Roberts; Milner-White, Ursula Mary, South Devon, England, first class honors in Economics and second class honors in Sociology; Mindes, Evelyn, distinction in the General Course; Mitchell, Kina Marie, New York City, second class honors in French; Morgan, Constance Pearl Elaine, Jamaica, B.W.I., second class honors in History and Psychology.

Organ, Anita June.

Pinsky, Naomi.

Schechter, Phyllis; Scherzer, Analee Ruth; Scholefield, Betty Ainsley; Segal, Rya.

Shiffman, Shirley Marks, First Class Honors in Economics and Political Science; Shine, Tamar Marianne, Second Class Honors in Economics and Political Science; Silverman, Rachelle, Second Class Honors in Psychology; Small, Evelyn Rosalie; Smiley, Helen Isabel, St. Lambert; Steacie, Diana Jeannette, Ottawa, Ont., Second Class Honors in English Language and Literature; Tencer, Elaine Constance Turner, Emily Joan; Underhill, Beryl Oliva, Lachute, Que. Distinction in the General Course; Van Scoyoc, Ann; Walters, Barbara Effie, Liverpool, N.S.; Wilson, Norma Frances, Ottawa, Ont., Distinction in the General Course; Winthrop, Selma Cecilia; Yack, Jean Elizabeth, First Class Honors in Economics and History.

Passed for the Degree of B.Sc. Men

Barron, Lawrence Robert Aloysius, St. John's, Nfld., Distinction in the General Course; Beardmore, Harvey Ernest, Windsor, Ont.; Bercovitich, Mortimer, First Class Honors in Mathematics and Physics; Bloomfield, Solomon Saul, Bourque, Joseph William Arthur; Burwell, Robert Beatty, Renfrew, Ont.; Butler, Robert Westbrook, First Class Honors in Chemistry.

Candlish, Stanley Maiben, Chalkin, John David; Cohen, Hyman; Cummings, Jack Lloyd; Currie, Richard Allen.

Darragh, James Hilton, Great Distinction in the General Course; de Gryse, Louis Mathieu, Ottawa, Ont.; Dewhurst, Harold A., Second Class Honors in Chemistry; Dogrell, Leslie Arthur; Doherty, George Brian; Druckman, Ralph Irving, Great Distinction in the General Course; Eden, George Charles Ekler Kurt, Second Class Honors in Chemistry.

Findlay, Robert Graham; Fitch, Joshua Hyam.

Ghent, Emmanuel Robert, First Class Honors in Biochemistry; Golden, Clifford, Distinction in the General Course, the Ornithology Prize; Gooding, Herbert Bowen, Barbados, B.W.I., First Class Honors in Botany, the Major Hiram Mills Gold Medal and the Penhalow Prize in Botany; Gravel, Jean Joseph Ovide.

Hall, Edward, Windsor Mills, Que.; Halpern, Jack, First Class Honors in Chemistry and the Anne Molson Prize; Heller, Irving Henry; Hill, Ross Ogilvie; Hospadaruk, Vladimir, Second Class Honors in Chemistry.

Johnston, Walter Ritchie.

Kahn, Alfred Jacob, Second Class Honors in Biochemistry; Kangles, Harry Nick, Regina, Sask.; Knight, Allan; Korman, William, Noranda, Que.

Lefcoe, Neville Montague, Second Class Honors in Functional Biology.

Lindon, Clinton, Leopold, Jamaica, B.W.I.

MacCallan, William David, Calgary, Alta.; MacDowall, Fergus Day Hori, Victoria, B.C., Second Class Honors in Botany; McDonald, Herbert George, Jamaica, B.W.I.; Mendel, Berl David, distinction in the General Course; Mergler, Daniel Nathan; Mohammed, Nizamud Dowlah, Trinidad, B.W.I.; Needham, Edward Radley, Drummondville, Que.; Norman, David Wylie, Jamaica, B.W.I., the Ornithology Prize.

Olafsson, Patrick Gordon, Winnipeg, Man.; Ornstein, William Sidney.

Parsons, William David; Perelmutter, Bernard; Pomeroy, Robert Bruce; Procopio, Clayton Arthur McIntosh, Trinidad, B.W.I.

Raven, Peter John, Charlottetown, P.E.I.; Reade, Jack Lee; Rothstein, Bernard Boddy, Great Distinction in the General Course.

Schechter, David, The Governor-General's Silver Medal for Great Distinction in the General Course and the Fantham Memorial Prize in Zoology; Seville, Arthur Francis, Shaw, Michael, Barados, B.W.I., First Class Honors in Botany and the Major Hiram Mills Gold Medal; Shulman, Irwin Winfield; Smith, Donald Morison, Second Class Honors in Chemistry; Steen, Frank George; Swail, James Carl, Distinction in the General Course.

Talvenhelmo, Gerhard, Kenogami, Que.; Tate, Parr Allen, First Class Honors in Mathematics and Physics and the Anne Molson Gold Medal.

Victor, Arthur Abraham, Distinction in the General Course; Webb, James Lawrence, Halifax, N.S., Second Class Honors in Biochemistry; Weinstein, Joseph, Second Class Honors in Biochemistry; Willis, George Christopher, Shanghai, China; Wonfor, Herbert Wallace, Second Class Honors in Geological Sciences; Wood, Lear Peterkin, First Class Honors in Mathematics and Second Class Honors in Physics.

AWARD WINNERS AT MCGILL UNIVERSITY

Norah Magid Gold Medal for English
P. A. Tate Gold Medal for Mathematics and Natural Philosophy
Herbert Gooding Gold Medal for Biology
Michael Shaw Gold Medal for Biology
Allen Oliver Gold Medal for Economics and Political Science

David Schechter Governor-General's Silver Medal for great distinction in the general course
Harry Blitstein Gold Medal in Economics; Lieutenant-Governor's Silver Medal in Commerce
Peter Adelstein British Association Medal in Electrical Engineering
A. D. D. Halblen British Association Medal in Electrical Engineering
J. A. Assaly British Association Medal in Mechanical Engineering

Sheila Baillie Royal Architectural Institute of Canada Gold Medal; Miss J. McLennan's Special Prize
Alfred Goldberg British Association Medal in Metallurgical Engineering
John Stonehewer British Association Medal in Civil Engineering
Margery Trenholme Library School Prize for highest average during the year
Bertha Thornhill Library School Prize for highest average during the year

(All Photos by Jacoby)

Passed for the Degree of B.Sc. Women

Alexander, Audrey Lois.

Barsky, Selma; Barwick, Audrey Joyce; Berman, Evelyn Myra, first class honors in functional biology; Bone, Margaret Turner; Buchanan, Mary Elizabeth; Burgen, Margaret Jean.

Cohen, Eva, second class honors in functional biology; Collins, Anne Margaret, Three Rivers, Que.; Creaghan, Mary Verne; Cullen, Andrea Mary Claire.

Frankenberg, Beatrice, Second class honors in biochemistry.

Gilmour, Joan May; Goldfield, Esther Miriam, Ottawa, Ont.; Grover, Ada Gertrude; Grundy, Agnes, second class honors in Botany.

Haney, Joyce, Greenwich, Conn.; Hatcher, Norma Morris, second class honors in biochemistry.

Kravitz, Fayge; Kwicinska, Hanna Maria, second class honors in biochemistry.

Lenny, Elizabeth Leonora; Levine, Annabel; Lowe, Phyllis Pearl Hewan, Jamaica, B.W.I.

Maldoff, Bertha; Manson, Nora Cormack; Mazer, Dorothy, second class honors in biochemistry; McCurdy, Elizabeth Olla, first class honors in Bacteriology.

Noble, Ruth; Peters, Gertrude Louise, St. John's, Nfld.; Potter, Shirley Ann Elizabeth.

Risebrow, Marjorie Ruth; Robinson, Elaine Louise, first class honors in biochemistry; Rogers, Lalley, second class honors in biochemistry.

Scarth, Janet Archer; Stevens, Catherine Elizabeth; Storey, Winifred Florence.

Taylor, Ruth Janet.

Van Straten, Sylvia, Florence, first class honors in chemistry.

Williamson, Margaret Laura, distinction in the general course; Wilson, Doris, Brookline, Mass.; Wood, Phyllis Wentworth; Wyman, Joan Doreen.

Passed for the Degree of B. Com.

Aboud, Daniel, Grand'Mere, Que.; Adams, James Lorne, Adeles, Rosalind, Distinction in the General Course, the Lieutenant Governor's Bronze Medal and the F. W. Sharpe Prize.

Becker, Bruce Henry, Richmond, Que.; Benjamin, Gerald, Blitstein, Que.; Benjamin, Gerald, Blitstein, Que.; Harry, First Class Honors in Economics and Political Science; the Lieutenant Governor's Silver Medal in Commerce and the Beatty Gold Medal in Economics; Brown, William Russell; Burgess, Charles Johnson, Jamaica, B.W.I., Distinction in the General Course.

Clarke, Gordon Bradshaw, Courcy, Maurice.

Davey, John Caldwell.

Frank, George, Windsor McColi.

Hampson, John Greville, Distinction in the General Course; Heybrook, Ernest Peter, Manilla, Philippines.

Kerr, David Fleetwood.

Marcovitz, Henry Morton, Distinction in the General Course; Marples, Vaughan Wilkens.

Nowers, Alan Philip, Ottawa, Ont.

Reckitt, John Hyde, Russell, Jack Arthur.

Salhany, Loris Marlam, Cornwall

Ont.; Sinclair, Robert Lee, Summit, N. J.; Stronach, William Neil.

Tanner, Charles Crombie, Richmond, Que.; Thompson, Herbert Cameron, Victoria, B.C.

Wilder, William Price, Toronto, Ont.

FACULTY OF ENGINEERING

Bachelor of Architecture

Baillie, Sheila Pamela, The Royal Architectural Institute of Canada Medal; Miss I. McLennan's Special Prize for the Highest Standing in the Fifth Year, University Scholar Honors in Architecture; Fischer, Erich Carl, New York, N.Y.; Green, William Robert; Hyde, Ina; Mendelsohn, Ala Marja, New York, N.Y., The Louis Robertson Prize in Design, Thibaudau, George Edward, St. George East, Que.

Bachelor of Engineering

(Chem) Chemical Engineering; (Ci) Civil Engineering; (El) Electrical Engineering; (Mech) Mechanical Engineering; (Met) Metallurgical Engineering; (Mi) Mining Engineering.

Adelstein, Peter (Chem.), British Association Medal: Honors in Chemical Engineering; Allen, Alex David (El) Burlington, Ont.; Angel, Henry (Mech.) Honors in Mechanical Engineering; Archibald, Rupert Douglas (Ci), Port of Spain, Trinidad, B.W.I.; Assaly, Joseph Alfred (Mech), Lachute, Que., University Scholar; British Association Medal: Honors in Mechanical Engineering; Baird, Samuel Lawson (Chem), Winnipeg, Man.; Balfour, Richard James (El); Beer, William George (Chem), Toronto, Ont.; Bird, Gordon (Ci), Perce, Que.; Bonin, Robert (Chem.); Bonnet, Kurt (El); Boucley, Roger Peter (Mech.); Brock, Hyman Bernard (Mech.); Brodylo, Stanley San (Mech.); Burditt, Albert William (Mech.); Saint John, N.B.; Burroughs, John Charles (El), Ottawa, Ont.; Calderon, Carlos (Ci), San Antonio, Tex.; Carr, Laurence Edward Neil (Mech.), Calgary, Alta.; Clement, Mortimer (Mech.); Cohen, Louis Israel (El); Colas, Emile Jules (Ci).

Cordon, Frank Roderick (Mech), Winnipeg, Man.; Corkran, William Frederick (El), Ormstown, Que.; University Scholar: Honors in Electrical Engineering; Cullen, Vicar Harold (Ci), Sudbury, Ont.; Dall, John William (Ci), De Grandmont, Marcel (Chem), Cap-Madeleine, Que.; Dempster, William Eric (Met), Noranda, Que.; Deschenes, Albana Milville (Ci), Matapedia, Que.; Dosne, Francis (Chem), Hawkesbury, Ont.; Douglas, John Hamilton (Mech), Winnipeg, Man.; Feldsted, Robert John Cecil (Mech), Winnipeg, Man.; Fokschaner, Peter (El), Fox, Charles James (Ci), Kingston, Jamaica, B.W.I.; Frankel, Joseph (Chem), Gagnon, Gilles (Ci), Galloway, Harry Sydney (Chem), Gauthier, Guy, (Ci), Glassman, Alex (Chem), Three Rivers, Que.; Goldberg, Alfred (Met), Montreal Chapter, American Society for Metals' Prize in Metallography and Thesis, Goodfellow, Jameson Bruce Grant (Mech), Aerostart; Gosselin, Real (Ci), Abitibi, Que.; Grant, Peter

Stuart (Mech), New Liskeard, Ont.; Halblen, Alfred Hans-Dieter (El), Niagara Falls, Ont.; University Scholar: British Association Medal: Honors in Electrical Engineering; Hammerschmidt, Leo John (El), Hanchet, Walter Howard David (Mech), Ottawa, Ont.; Harris, John Richmond (El), Mandeville, Jamaica, B.W.I.; Hoskin, Edward David Erskine (Chem), Winnipeg, Man.; Honors in Chemical Engineering; Hurter, Alfred Maxwell (Chem), Engineering Undergraduate Society's First Prize for Summer Essay.

Governor-General Honored at Special Convocation

23 Men Receive Awards In Unique Investiture

Eighteen undergraduates and five staff members were invested by Canada's new Governor-General, the Viscount Alexander, at a unique ceremony on McGill campus Wednesday afternoon. This is the first time that an investiture has taken place concurrently with a convocation.

The decorated servicemen were:

STAFF

Lt.-Col. Walker, H. H. E. D.S.O.
Maj. McDougall, C. M. D.S.O.
Col. Mackenzie, J. C. O.B.E.
Surg.-Cmdr. Morton, H. S. O.B.E.

The McGill men honoured had their medals pinned on to their uniforms by the famous general while his secretary and aide-de-campe, Maj.-Gen. H. G. Letson, C.B.E., M.C., read out the official citations of their deeds of gallantry and devotion to duty.

The University authorities regret that there were others among the undergraduates deserving of investiture but that owing to a shortage of time before the decision to hold the ceremony was made many had to be left off the list. The medals had to come from England especially for the occasion. The awards of the above have all been previously gazetted officially with their citations.

The colorful ceremony was an outstanding feature of the afternoon's events, adding to the Governor-General's first official visit to this university when he was awarded with an honorary law degree. A similar procedure will be enacted at University of Toronto but it was felt to be a singular honor for the vice-regal party to decorate McGill's war heroes at this time.

HIS EXCELLENCY, VISCOUNT ALEXANDER and LADY ALEXANDER are here shown as they took part in the Academic Procession preceding the Special Convocation ceremony in which His Excellency was awarded the honorary degree of Doctor of Laws. Behind them are PRINCIPAL F. CYRIL JAMES and Scarlet Key representative, EDWARD BALLON. (Peter Hall—McGill Daily)

Lady Alexander Interested Guest At Convocation

McGill Colours Worn In Attractive Corsage By Gov.-Gen.'s Wife

By Goldie Wolofsky

Taking part in the Convocation ceremony of Wednesday, May 22, in which her husband was awarded the honorary degree of Doctor of Laws, was the charming and attractive Lady Alexander.

Seated at the left of Principal James, Lady Alexander listened with noticeable interest and enjoyment to the addresses of Dr. James and her husband. She sported the colors of the University in her corsage, which was made up of red roses mingled with white, bell-shaped flowers.

Lady Alexander was dressed completely in navy blue and white. Her dress was navy blue with white stitching, and a wide white belt tied with a large bow at the left. She wore a smart hat which consisted of a cluster of tiny white flowers, tilted slightly over her right eye. Her other accessories, her purse, gloves, and shoes, were all navy blue.

A three-strand pearl necklace and tiny pearl earrings as well as a large silver fox necklace completed her attire. A very close-up view showed that Her Excellency was wearing sheer nylon stockings as well.

HIS EXCELLENCY, FIELD MARSHAL THE RIGHT HONOURABLE THE VISCOUNT ALEXANDER OF TUNIS, G.C.B., Governor-General of Canada, is shown giving the Convocation address, after receiving the honorary degree of Doctor of Laws from Principal F. Cyril James. (Peter Hall—McGill Daily)

Stresses Role of "Visitor" In Its Historic Development

In his address of welcome to His Excellency the Viscount Alexander of Tunis, Visitor to McGill, Dr. F. Cyril James, Principal and Vice-Chancellor of the University, paid fitting tribute to Canada's new Governor-General at last Wednesday's special Convocation.

The text of his speech is as follows:

Sunshine and shadow are mingled in our thoughts as we assemble in Convocation today. It is a proud moment in which we welcome, as Visitor to McGill University, His Excellency Field Marshal the Viscount Alexander of Tunis. We watched from day to day, during the dark days of the struggle that is now behind us, the progress of his campaigns. We have watched with admiration and thankfulness, to which was added, in the case of many who are present here this afternoon, an intimate personal bond arising from the knowledge that those who were near and dear to us served under his command.

For all these reasons, we rejoice in the fact that you, Sir, have today come to take your rightful and traditional place among us as His Majesty's Visitor.

But I should be less than honest if I did not mention the sorrow that lies heavily upon our hearts. Our Chancellor, whom we had expected to preside at this Convocation, had won the affection of every member of this University with whom he came in personal contact. We were inspired by his example, and strengthened by his counsel. No man among us was more eager than Morris Wilson that McGill should play a splendid part in the great task that confronts the Universities of this Dominion, and indeed of all the western world, during the years

that lie immediately ahead: none worked harder or more diligently to make that vision a reality. The memory of his personality is etched deep in our thoughts this afternoon; our sense of loss is vivid.

In the name of every member of this Convocation as well as from myself, I should like to pay tribute to one who will always be remembered in our pride, as a great Canadian, and more affectionately in our inmost thoughts, as a devoted friend.

The responsibilities of the Visitor, which you, Sir, are assuming today, are portentous in import but vague in definition. Under the original Charter of McGill College, granted in 1821, King George IV reserved to himself, and to his heirs, the right to disapprove of the appointment of any Principal or Professor. He specifically provided that any person who met with such disapproval should "immediately cease to hold office", and this was no empty gesture. Exactly a century ago, in the spring of 1846, Mr. William Ewart Gladstone, in his capacity as Secretary of State for the Colonies disapproved the appointment of my predecessor Principal Bethune who, at that time, had held office for more than eleven years.

The sword of Damocles now hangs by a stouter thread. The second charter, granted by Queen Victoria in 1852, provides that the Governor-General of this Dominion, in his capacity as Visitor, must signify his disapproval within sixty days of the original appointment by the Board of Governors, so that all members of the University whose academic age exceeds two months need not walk in fear of Principal Bethune's example.

This mitigation of the perils of (Continued on Page 6.)

Eminent Visitor Awarded Degree Of Doctor of Laws by University At Colorful Ceremony on Campus

Newest Graduate Praises War Role of Universities

Expressing great regret at the loss of McGill's Chancellor, Morris Wilson, and praising the work and the service of McGill, His Excellency, Field Marshal the Right Honourable the Viscount Alexander of Tunis, G.C.B., Governor-General of Canada, and Visitor of McGill University, spoke to an audience in the open-air special convocation last Wednesday, May 22.

Lord Alexander opened his address by expressing his sorrow over the death of Morris Wilson, who was to have conferred the degree of Doctor of Laws on the new Governor-General.

The text of the remainder of his speech follows:

My wife and I wish to thank you for the warm welcome you have given us today, and above all I should like to thank you for the high honour you have conferred on me. It is a matter of great pride and satisfaction to me personally that the first degree which I have received in Canada has been at the hands of this famous University. We are both indeed happy to be here amongst what the Press called in reporting the first Opening ceremonies of June 24th, 1829, "Numerous and respectable individuals."

In looking back over some 120 years history of McGill, one is truly impressed with the vision, courage and tenacity of that great Scotsman and his fellows of the Royal Institution for the advancement of learning. For them and for those who followed them through long years of internal dissension and poverty, there could be no finer reward than to look down on this great University and see it, as I see it today—honored by men of culture and famous throughout the world.

They might indeed be proud and happy that their early struggles had been crowned with such great success. To undertake, as they did, the founding of an institution of higher learning in a pioneer country, was a task that called for great men, and they were great men. Those founding fathers rightly felt that Lower Canada should have a place in which the youth of the country could receive higher education, rather than be attracted to seeking it abroad—to leave the country of their birth perhaps never to return. But today I am happy to learn that this so-called "flight from home" in order to obtain a university education has declined and in some degree has been reversed.

Here you have students from every part of the world and particularly from our great neighbour and good comrade in arms, the United States of America.

Unfortunately, I never had the advantages of a University education. That was the price we soldiers paid for a professional career in those days. Today there are thousands of young men who have been denied these great benefits through no fault of their own. It is because six long years of war have claimed them. I am particularly glad to

see that you have thrown open your doors wide and are taking in these young men in as great a number as possible.

This arrangement is very wise and far seeing, because I believe that varsity life gives to its students an outlook on men and affairs which no other form of education can give.

It is not only a just tribute to those young warriors who won the war for us, but a wise step in building for the future. Long ago many of the students who first registered in McGill, were the sons of men of the Highland Regiments who had fought for this country and later stayed to make their homes here.

Today I see men who fought in the World War of 1914-18 and many who have done their duty on the battlefields of this War, which ended in Europe just a year ago.

It was my privilege to have many of you under my command in the Mediterranean, and of all the troops of the Allied Armies in Italy, none played a greater part in our victories than your own.

It will be my happy task today to decorate, in the name of The King, those of you who have been chosen for special distinction. And in honouring those who have performed exceptionally fine service, we do not forget those who have given the greatest service of all which a soldier can give on the battlefield—to give his life for his comrades and for the ideals for which we all fought.

To the mothers and fathers of those who fell on the battlefield going in a soldier's duty, our hearts go out in sympathy. We trust that a better world may be their comfort and consolation.

I have spoken of the splendid contribution McGill has made to Victory, but it is not only in the fighting services, but in other fields as well. Without the aid of the Universities and the research establishments which received their guidance, we could not have survived, let alone won.

Modern warfare has become so scientific and weapons so advanced, that the aid of the scientist and engineer is essential. I don't propose to enumerate the long list of projects which were undertaken, but I do know that at the outbreak of war, McGill University immediately offered to the Government all the facilities of its personnel and equipment to aid in the war effort.

I was in England during the dark days of 1940, just after Dunkirk—when we stood there alone almost defenceless. Where should we have been without Radar to give us warning of the approach of the German war planes, and time for our small and gallant band of fighter pilots to intercept them?

How many of our lads, sitting here today, would have lost their (Continued on Page 6.)

Alexander Invests Students, Staff Following Address

Alec Ross Presented To His Excellency On Students' Behalf

Three rousing cheers from the mouths of hundreds of McGill students and Montrealers were ringing out over the campus, and a brilliant sun was shining upon the freshly painted red and white platform as His Excellency, Field Marshal the Right Honourable the Viscount Alexander of Tunis, G.C.B., Governor-General of Canada, and Visitor of McGill University accepted the Honorary Degree of Doctor of Laws from the hands of Principal Cyril James, last Wednesday, May 22.

Introduced by Dr. J. C. Meakins, Dean of the Faculty of Medicine as "a brilliant strategist, a great campaigner, and a natural leader of men," Lord Alexander was visibly affected as he received the degree of the university of which he is Visitor by Royal Charter.

Delivers Address

Dressed in a red and white academic gown over his beribboned khaki uniform, Lord Alexander delivered the Convocation Address to the huge audience attending the first post-war summer convocation at McGill. A hush descended over the crowd assembled on the campus as the distinguished visitor expressed his and Lady Alexander's sympathy in the loss of Chancellor Morris Wilson. He also paid high tribute to the Canadian servicemen who served under him in Italy, and he pointed out that the war could not have been won had it not been for the role played by the Universities, especially in the fields of Radar and Medical Science.

Flash bulbs exploded, a newsreel camera whirled, and a radio announcer standing on a table, spoke softly into his microphone as Lord Alexander then proceeded to decorate five staff-members and eighteen students of the University. The twenty-three uniformed men, representing the three services, Navy, Army, and Air Force, were received individually by the Viscount, who pinned the medals upon their left breast pockets, shook hands with them, and after a few whispered words, they saluted smartly and walked off the platform.

Ross Presented

Although the Convocation proceedings did not officially commence until 4 p.m., the Governor-General's arrival was heralded by the raising of his personal flag atop the Arts Building at 3.30 p.m. At an official reception in the Principal's office, Alec Ross, president elect of the McGill Students' Society was presented to His Excellency on behalf of the Students of McGill.

The distinguished visitors then joined the procession, marshalled by Dr. Bruce Ross, the University Marshal, and the procession proceeded away from the Arts Building toward the section of campus roped off for the occasion. As the members of the procession, very colorful in their robes trimmed with red, blue and yellow, and their mortar boards, neared the campus, a military band from District Depot 4 struck up a tune, and cameras—both newspaper and private cameras—became very active.

After the ceremonies, which were ended with the playing of O Canada, and God Save the King, the procession reformed, and the audience kept their seats as it moved slowly away and up to the Arts Building. Then, little groups gathered about the decorated men as congratulations and handshakes became the order of the day. Military and civilian photographers took pictures of family groups, as the invested servicemen gathered their friends and families about them. The campus gradually cleared and became quieter, except for the occasional lingering groups. The workmen started to remove the chairs.

COTC Head Is Decorated By Alexander

Lt. Col. Walker Outlines Future Plans of Corps

Lieutenant Colonel R. H. E. Walker, D.S.O., Officer Commanding McGill Contingent of the C.O.T.C., told The Daily that it was a great thrill to receive his decoration at McGill from the new Governor-General of Canada, the Viscount Alexander of Tunis. "We all felt glad that we were able to have the investiture at McGill where our families were able to witness the ceremony and share in the honours. We consider it an especial honour to be decorated by the famous field marshal," he said expressing the belief that his feelings were concurrent with those of the whole party.

Graduating from R.M.C. in 1933 and from McGill in Law in 1936, Col. Walker also held a commission with the non-permanent Artillery prior to the war. In 1940 he went overseas with the 1st Canadian Medium Artillery of the RCA, and remained there except for a short period of training for a staff course until November, 1945. He was in command of the 15th Field (Continued on Page 10.)

Major McDougall Invested with DSO

University Counselling Officer for Veterans Is McGill Graduate

Well-known to the student-ex-servicemen at McGill is Major Colin M. McDougall, who was awarded the Distinguished Service Order at the investiture held here last Wednesday, May 22. In his official capacity as University Counselling Officer for student veterans, Major McDougall meets most of the McGill men who served in World War two.

Described in the official citation as "a most dashing and fearless officer of great skill and determination," Major McDougall is himself a McGill graduate, having received his Bachelor of Arts degree in 1940, shortly before he joined the armed forces.

Son of Mr. Justice Errol McDougall of Montreal, he went overseas as a lieutenant in the Princess Patricia's Canadian Light Infantry in 1941. He saw active service in Sicily, when he was promoted to Captain and Adjutant in 1943. Invalided out of the service in 1945, he also fought in Italy, for which he received his decoration and was mentioned in dispatches.

Major McDougall, when interviewed, spoke very little about himself, but was very enthusiastic with the way the ex-servicemen

Dr. W. Bullough To Leave McGill

Awarded the Sorby Research Fellowship of the Royal Society at a value of £800 a year for five years, Dr. W. Bullough, of the Department of Biology at McGill University, expects to leave for England within the next two months.

Upon his return to England, where he was born in 1914 at London, Dr. Bullough will join the staff of the University of Sheffield, where, under the terms of the Royal Society award, he hopes to continue with his research work.

Graduating from the University of Leeds with the degrees of B.Sc., Ph.D., and D.Sc., Dr. Bullough came to McGill in September, 1944, and has been engaged with war research in the problems of cell division and the endocytin control of the cells.

Dr. Bullough, in an interview, expressed his desire to leave for England "as soon as possible," but that shipping difficulties would probably delay him for several months. "I shall miss Canada," he said, "especially the weather."

were readjusting themselves to college life. "The vets at McGill are doing remarkably well," he said. Commenting on the precedent-breaking investiture of the special convocation.

Kelly, Frances Rose, B.A., Swift Current, Sask.; Lapin, Sybil Harriet, B.A.; Leduc, Joseph, B.A.; McKay, Norma Kathleen, B.A. (in absentia), Canora, Sask.; MacLean, Phyllis Elizabeth Marie, B.A., East Riverside, N.B.; Milne, Margery, Jean, B.A., Smiths Falls, Ont.; Oakes, Margaret Isabel, B.A., Prowse, Phebe Jeanie McLea, B.A.; Thornhill, Bertha Eleanor Emma, B.Sc.; Trenholme, Margery Wynne, B.A.
Prizes for the highest average during the year: Miss Bertha Eleanor Emma Thornhill and Miss Margery Wynne Trenholme equal.

FACULTY OF GRADUATE STUDIES
Master of Commerce
Rothschild, Fred, B.Com. (McGill), (Economics), in absentia.
Master of Science
Andree, Shirley Rogan, B.Sc. (McGill), (Biochemistry); Atkinson, James Thomas Nesbitt, B.Eng. (McGill), (Chemistry); Ayoub, Raymond George, B.Sc. (McGill), (Mathematics); Berry, Verne Harrington, B.A., B.Eng. (Saskatchewan), Prince Albert, Sask. (Physics); Black, Percy, B.Sc. (Sir George Williams College) (Psychology); Black, Robson Hughdeburgh, B.A. (Toronto), (Physics); Chan, Allan P., B.Sc. (Agr.), (McGill), (Horticulture-Botany); Chaplin, Charles Eric, B.Sc. (McGill), (Agricultural Bacteriology); Chin Yee, Harold Reginald, B.Sc. (McGill), Jamaica, B.W.I., (Chemistry).
Collins, Vernon Kirkpatrick, B.Sc. (Acadia) (Agricultural Chemistry), in absentia; Cordukes, William, Eric, B.Sc. (Agr.), (McGill), Ottawa (Agronomy); Davidson, Margaret E. M., B.Sc. (McGill), (Zoology); Dodds, John William, B.Sc. (McGill), (Physics); Drapala, Walter J., B.S.A. (Manitoba), Winnipeg, Man. (Agronomy); Gertler, Menard Max, B.A. (Saskatchewan), M.D., C.M. (McGill), Westmount (Physiology); Hall, Octavia, B.Sc. (McGill), Anatomy; Hanson, Angus Alexander, B.S.A. (British Columbia), New Westminster, B.C. (Agronomy), in absentia; Hawboldt, Lloyd Stanley, B.Sc. (Agr.), (McGill), Halifax, N.S. (Entomology), in absentia; Hinds, Ewart Gladstone, B.Sc., M.D., C.M. (McGill), (Pathology), in absentia; Hymovitch, Bernard, B.Sc. (Sir George Williams College), (Psychology); Lachance, Francois de Sales, B.Sc. (Agr.), (McGill), Quebec, Que. (Parasitology).

Lambek, Joachim, B.Sc. (McGill), (Mathematics); Mamalak, Joseph S., B.Sc. (McGill), (Mathematics); Mills, Margaret Frances, B.Sc. (H.C.), (McGill), Eganville, Ont. (Nutrition); Nichol, Charles Adam, B.S.A. (Toronto), Dutton, Ont. (Agricultural Chemistry), in absentia.
Parsons, John Gordon, B.S. in Ed. (Fordham), St. John's East, Newfoundland, (Psychology); Pazur, John Howard, B.S.A. (Toronto), Ruthven, Ont. (Agricultural Chemistry); Proverbs, Maurice Desmond, B.Sc. (Agr.), (McGill), Barbados, B.W.I., (Entomology), in absentia; Quinn, Hubert Frederick, B.Sc. (McGill), (Physics); Robb, James Preston, B.Sc., M.D., C.M. (McGill), (Neurology), in absentia; Robertson, Florence Elizabeth, B.Sc. (Mount Allison), Hull, Que. (Biochemistry), in absentia; Schachter, Ruth, B.Sc. (McGill), (Zoology), in absentia; Tagliuri, Renato, B.Sc. (McGill), (Psychology).
Master of Engineering
Freeman, Paul Ora, B.Eng. (McGill), (Civil Engineering); Legendre, Rosaire, B.A., B.Sc.A. (Laval), Quebec, Que. (Chemical Engineering).

Master of Arts
Amsel, Abram, B.A. (Queen's), (Psychology); Beresford-Howe, Constance, B.A. (McGill), (English); de Jersey, Murray Gordon, B.A. (McGill), (Psychology); Layton, Irving Peter, B.Sc. (Agr.), (McGill), (Political Science); Macdonald, Roderick Ross, B.A. (McGill), (Classics); MacKeen, Frances Cox, B.A. (McGill), (French Language and Literature); Macpherson, John, B.A. (McGill), Moulinette, Ont. (Classics); Munroe, William Morgan, B.A. (McGill), (Education); Nakashima, Kimaki, B.A. (Washington), (Economics); Reid, David Buchanan, William, B.A., (McGill), Winnipeg, Man. (Psychology), in absentia; Seywerd, Henry, B.A., (Sir George Williams College), (Sociology); Sloat, Annie Prudence, B.A. (McMaster), Hamilton, Ont. (French Language and Literature), in absentia.
Master of Civil Law
Cuevas Cancino, F. M., B.A. (Mexico), Bachelor in Social Science, License in Law (Free School of Law, Mexico City), Mexico City, Mexico, (Civil Law); Lussier, Claude, B.A. (Montreal), B.C.L. (McGill), (International Law).
Doctor of Philosophy
Barry, Guy Thomas, B.Sc. (Sir George Williams College), (Chemistry); Bland, Eleanor, A.B. (California), Los Angeles, Cal. (Anatomy); Boyd, Mary Lillian, B.Sc. (McGill), (Manitoba), Winnipeg, Man. (Chemistry); Cragg, Gerald Robertson, B.A. (Toronto), B.A., M.A., (Cambridge), Montreal, (History); Devins, John Clarence, B.Sc., M.Sc. (Dalhousie), Mahone Bay, N. S. (Chemistry); Eastwood, Thomas Alexander, B.A., M.A. (Western Ontario), London, Ont. (Chemistry); Friedman, Sydney Murray, B.A., M.D., C.M., M.Sc. (McGill), Annapolis, B.S. (McGill), (Chemistry).

Grassie, Vernon Robert, B.A., M.A. (British Columbia), Duncan, B.C. (Chemistry); Guptill, Ernest Wilmot, B.Sc. (Acadia), M.Sc. (Western Ontario), Grand Manan, N.B. (Physics); Hall, Charles Eric, B.Sc., M.Sc. (McGill), (Anatomy); Huggill, John Templeton, M.B.E., B.Sc., M.Sc. (Alberta), Brooks, Al. (Chemistry); Marcus, Rudolph Arthur, B.Sc. (McGill), (Chemistry); Novack, Lazare, B.Sc. (Sir George Williams College), B.Sc. (McGill), Montreal, (Chemistry); Sobel, Harry, A.B. (Temple University), M.A. (Pennsylvania), New York, N.Y. (Biochemistry); Sylvester, Elizabeth Marjorie, B.Sc. (McGill), (Anatomy); Welsh, Paul, B.Sc., M.Sc. (McGill), (Zoology).
White, Howard Louis, B.Sc. (McGill), St. John's, Newfoundland, (Chemistry); Wiggins, Ernest James, B.Sc. (Queen's), Trenton, Ont. (Chemistry); Wise, Louis Maxwell, B.A., M.A. (Queen's), Belleville, Ont. (Chemistry).

SERVICE—from p. 1
ceremony on the lower campus, a presentation of the 1946 Graduating Class.
Garden Party
From 4 to 6 in the afternoon the Principal and Mrs. James will entertain at a Garden Party on the Lower Campus (weather permitting) in honor of the Graduating Class and their parents. This will be held in the Gymnasium if the weather is unfavorable.

NEWCOMERS—p. 1
life excluding the educational problems facing the new students.
Also planned at present are a dance and a University Reception for which it is anticipated that the Dawson students will be brought into town. Meanwhile at Dawson College, various activities have been organized by the Dawson College Students Council.
Further details can be obtained from the following Committee members: Jon Ballon, William Reid, Jim Paterson, Harvey Walford, Mary Ann Skare, Joy McKay and Al Tunis.

GRAD BALL—p. 1
tee is Nancy Van Scoy, who is R.V.C. representative on the Committee for Convocation Activities, under the chairmanship of Brian Doherty, and secretaryship of Barbara Logan. The faculty representatives are Brian Doherty (Arts and Science), Barbara Logan (graduate Nurses), Margaret Mackinnon (Physical Education), May Jackson (Engineering), Crombie Tanner (Commerce), Donald Brushett (Theology), Audrey Haworth (Physiology), Frank Calder and Cecil Freeman (Macdonald College), Merle Cayford (Students' Executive Council), and Nancy Van Scoy (R.V.C.).

NEWEST—p. 5
lives but for the wonders of medical science—blood transfusions, penicillin, sulpha drugs and so on? In these great scientific fields of Chemistry, Physics, Bacteriology and Medical Research, graduates and undergraduates have contributed much to Victory. This priceless heritage which you possess has been handed down to you by such outstanding men as Rutherford, Dawson, Osler, Laurier and Currie, and later McNaughton and Crerar. As time passes, others will be added to that imposing list, the product in Disraeli's words of "A place of light, liberty and learning."
On occasions such as this, I believe it is customary for the graduates to receive a convocation address. Today there is no graduating class, except myself, and therefore I will confine my few remarks to that group of Service personnel who have now said "Farewell to Arms," as I myself have done, an dare preparing themselves for civil life.
You may find the voyage rough at first and not all easy going, but you will start your careers with two priceless assets—one is the knowledge you will have acquired here by study and learning, and the other is the experience you have already gained of human relation, gotten from the training camps and the battlefields. If you make full use of these two factors in your life I, for one, have no misgivings as to your future success.
We have won the war, but we have not yet won the peace.
I belong to a generation which has seen two victories and two "cease fires," and we know that

the cease fire does not solve the fundamental problems which bring about war. To win the peace we must find the answer to the many problems which the Nations of the world are facing today. And it is in the resolution of these difficulties that men and women trained in such great institutions as McGill University, have a bounden duty to perform.
I cannot agree with those who say that a college graduate is presented with a sheep skin to cover his intellectual nakedness. If such be the case, then the University has indeed failed. I am convinced that a degree from this University is a Hallmark which implies that the recipient is prepared and willing to continue in a course of sterling service to his country. Surely he is not base metal which has attained a false and superficial plating of silver, which may soon tarnish and wear away.
To all of you and particularly to those who have been my comrades in arms, I charge you to carry on in civil life as you have done overseas. Be physically fit, be trained, be stalwart and courageous, and you will contribute much to Canada and a future world.
In conclusion, may I say this. From the day I landed in Halifax until this very hour, I have been much impressed by the great future that lies before Canada and its grand people.
In the days ahead, it seems to me that everyone of us could well subscribe to the words of John Drinkwater:
"Great Hills that fold above the sea
Ecstatic air and sparkling skies
Sing out your words to master me
Make me immoderately wise".

JAMES—p. 5
academic life has not, however, weakened the bond that has, throughout the history of McGill University, linked us with His Majesty's Visitor. Although the legal phrases of the Charter say much about the disapproval of appointments and little about the wider responsibilities of the office to which we welcome you today, I think that the intangible qualities of our relationship have assumed greater significance than the specific duties. Your predecessors have, at all times, received a warm welcome from every member of McGill University, students and staff alike, both at the official ceremonies of Convocation and on the frequent occasions of informality where they have come to see the University in its workaday clothes and watch the activities of education and research that are carried on within these walls.
May I, Sir, express the hope that this may be the first of many occasions on which we shall have the pleasure of welcoming your excellencies to McGill University. Your own greatness, and the record of your accomplishments, evokes from our hearts and minds a warmth of admiration that enhances, if that were possible, our traditional loyalty to the high office that you hold, redoubling the warmth of our greeting.

CONGRATULATIONS
and
GOOD LUCK

Pictured above are the winners of Group A Awards named recently by the Student's Executive Council. These awards along with Groups B and C are made annually by the council and are to acknowledge outstanding executive ability in campus extra-curricula activities.

The following is a list of winners in Groups B and C.

Group B Awards

Robert Black, Medical Representative, Students' Exec. Council.
Colin Campbell, McGill annual 1945.
Brian Doherty, Manager, Book Exchange.
W. N. Fingland, President, Arts and Science Undergrad. Society.
Charles Fox, President, Engineering Undergrad. Society.
Richard Goldbloom, President, Music Committee.
Peter Hadrill, President, Dawson

College Students' Council.

E. T. Jousse, Associate Producer, Red and White Review.
Hon. M. Kidd, President, Women's Medical Society.
Allan Knight, Sports Editor, McGill Daily, Chairman, Students' Athletic Council.
T. J. McKenna, Chairman, Charity Drive.
Sheila Mercer, Co-chairman, Charities Week.
Jack Pye, Chairman, N.F.C.U.S. Conferences, President, Scarlet Key Society.
Isadore Rosenfeld, President, Debating Union Society.
Herbert Shayne, Sports Editor, McGill Daily, Vice-President, Commerce Undergrad. Society.
Clayton Thompson, President, Dawson College Students Council.
David Townsend, President, Player's Club, Engineering Debating Society.
Beryl Underhill, House President, R.V.C., Chairman, Voluntary Services, Program for women 1945-46.
Margaret Williamson, President, McGill Film Society.
Phyllis Wood, President, N.W.S.A.A.

Group C Awards

Raymond Affleck, President, Architectural Undergraduate Society.
Hedwig Brown, Treasurer of M.W.S.A.A.
Boris Berbrier, McGill Debating Union Society.
John C. Beck, Case Reporter Med. Undergraduate Society.
Thomas Buck, News Editor McGill Daily.
John Chipman, Secretary Inter-University Club.
John Cunningham, President S.C.M.
Creighton Douglas, Stage Manager Red and White Revue.
Archie Etienne, Music Director Red and White Revue.
George Frank, Pres. Commerce Undergraduate Society.
Barbara Fenton, Secretary Women's Union McGill University.
Margaret Fyles, Pres. Freshette Reception Committee.
Robert Gill, Vice President of Arts & Science Undergraduate Society.
Barbara Jones, Secretary Women's Union McGill University.
Donald Koch, President of McGill Choral Society.

ART . . . MUSIC . . . DRAMA A Preview of the Program for the Summer

Concerts at the Chalet...at Molson Stadium...at Delorimer Stadium

Three Man Show at the Art Gallery—Theatre... "Candida" ... "Antigone"—Films from France at the St. Denis

Pelletier Conducts

Eight concerts on the Mountain have been scheduled for this Summer, under the direction of "Les Concerts Symphoniques de Montreal." They will take place, as usual, in front of the Chalet. Wilfrid Pelletier will conduct the first concert, to be held Tuesday, June 25. The other seven concerts will take place weekly, on every Tuesday. Several guest conductors have been invited, among them Sir Ernest MacMillan, of Toronto, Anatol Dorati, Arthur Fiedler, of the "Boston Pops," and Desiré Defauw, who is now conducting in Chicago. The concerts will start at nine o'clock, and all tickets will be sold at the wicket.

MEXICAN FIESTA

"Concerts under the Stars" will be presented this year, at Molson Stadium, the first being scheduled for Tuesday, June 18. It will feature a "Fiesta Mexicana," a whole program devoted to songs and dances of that country.

"Canadian Concerts and Artists," who are sponsoring the series, announce that the other seven concerts will take place on alternate Thursdays, on July 4, 18, and August 1 and 15.

STRAUSS FESTIVAL

A program featuring the music of the three famous composers by the name of Strauss will begin a series of concerts given at Delorimer Stadium, by the new "Montreal Philharmonic Orchestra." This first concert, which is scheduled for July 3, will be conducted by Oscar Strauss, composer noted for his charming waltzes and operettas, notably "The Chocolate Soldier" and "A Waltz Dream."

Works of Richard Strauss and Johann Strauss will be on the program. The evening should prove interesting, for, although alike in name, the music of these three composers differs. Richard Strauss is noted for his eight Symphonic Poems and for his Operas, "Salome" and "Elektra." Yet he has proven his ability to write lilting dance music, in his well known "Rosenkavalier." Johann Strauss is the most popular of all three, for his waltzes, and for his operettas, "The Gypsy Baron," "The Bat," and others.

GERSHWIN PROGRAM

At the third concert, on July 31, Paul Whiteman will conduct a program devoted to the works of George Gershwin. Georges Tyl, French Tenor, will be featured in

Feeling and Power

In the Three-Man show at the Art Gallery, the works of Dr. Holesch stand out by their deep feeling and power. A very versatile painter, this Hungarian artist who is now living in Montreal, paints mostly portraits and groups. The faces are beautiful, and they capture the personality of the model. The groups show humour; some are satirical. The whole exhibition presents a gifted and powerful painter.

Dr. Holesch was born in Czechoslovakia. He has travelled and worked in the Far East, in the Philippines, in Bali and Japan. He now resides in Montreal, and intends to specialize in portrait painting.

FRENCH CONCENTRATION CAMP

The paintings of Claire Fautaux, now on exhibit at the Art Gallery, show life as she saw it, during seven months at the Concentration Camp at Besancon, in France. Other pictures depict Paris, where she lived for a considerable time, as prisoner of the Germans. Miss Fautaux is a native Montrealeuse, and studied at the Art Association. She plans to write a book this Autumn, and the pictures now on exhibition will be used as illustrations.

Notable in her paintings, is the absence of pathos or pity. Life in the camp is shown realistically. Yet there is nothing ugly. Simplicity of line, simplicity and variety of colours, make a tragic subject easy to look at.

CANADIAN PAINTER

The paintings of the late Samuel Robertson, also in the exhibition at the Art Gallery, show him to belong to the Canadian School. There are lovely, colourful landscapes of the Laurentians. The paintings all show his feeling for beauty. There is none of the modern distortion. An air of peace and loveliness pervades the work of this Montreal painter. The exhibition will be on view until the middle of June.

The second concert of the series, on July 17.

Les Amis de l'Art have tickets at reduced prices, for members, for the concerts at both Molson and Delorimer Stadium. The Secretary's Office will be open all Summer. From June 15 to August 24 it will be open only from 2 to 5 in the afternoon. The phone number is FRontenac 1119.

Whittaker & Wilson

Herbert Whittaker will direct Bernard Shaw's "Candida" this Summer at Knowlton, beginning July 16. Betty Wilson will take the part of Candida, and Pierre Dagenais, that of the poet, Marchbanks. This will be Mr. Dagenais' first English speaking role. Also in the cast is Filmore Sadler, as the Pastor.

Mr. Whittaker and Mr. Dagenais have recently collaborated in the production of "King Lear." It is heartening to know that this teamwork will continue. We wish it—and we predict—a long and successful run.

PLAY OF THE RESISTANCE
"Antigone," the famous French play of the Resistance, is being played by "Les Compagnons de St. Laurent," every night this week, at their theatre, at 1200 Bleury. Mademoiselle Cadorette takes the role of Antigone, and le Pere Legault is directing.

The play has been produced recently on Broadway with Catharine Cornell and Sir Cedric Hardwicke in the leading roles. The fight for freedom of Antigone is shown, her resistance against the tyrant, for final sacrifice.

FILMS FROM FRANCE
Films from France, produced during the Occupation, will be shown all during the Summer, at the St. Denis Theatre, and at the Theatre Cinema de Paris. This is very welcome news, as French films have much character, and technical excellence.

French films, even more than the English ones, have a feeling of reality that Hollywood cannot, or does not want to, portray. In French films, people are "people," and not glamorous movie actors. There is less physical beauty in the pictures as a whole, but more reality.

REPORTER—p. 5

same award in the First Great War. They were just about to have their picture taken, and I figured that maybe I could get in on it, when suddenly the Lance Corporal asked: "Hey, what about Mom?" So away they went to find "Mom," and left me there, sans picture. The campus slowly cleared of people, and I watched the workmen for a while as they started to gather up the chairs.

Thank You

The Feature-Page wishes sincerely to thank all its contributors of the past session.

Cars and Parking on the University Campus

CARS WILL BE PERMITTED TO ENTER THE UNIVERSITY GROUNDS ONLY BY THE RODDICK GATES ON SHERBROOKE STREET AND WILL LEAVE BY THE MILTON STREET ENTRANCE. THERE WILL BE NO PARKING AVAILABLE IN THE AREA BETWEEN THE ENGINEERING BUILDING AND McTAVISH STREET BUT THERE WILL BE A LIMITED AMOUNT AVAILABLE ELSEWHERE.

Summer Sports Plan Present Wide Variety Of Various Athletics

Softball, Baseball, Track, Golf, Among Facilities Offered

For the first time in the history of McGill University an

organized summer schedule of athletic events under the supervision of Ed MacLaughlin will be presented to the students attending college. At least eleven sports have already been organized with the possible additions of more when the preferences of the incoming students are expressed. Softball, baseball, track and field, tennis, golfing, rowing, sailing, soccer, riding, gymnasium work, McGill Outing Club activities are those activities which have already been formed.

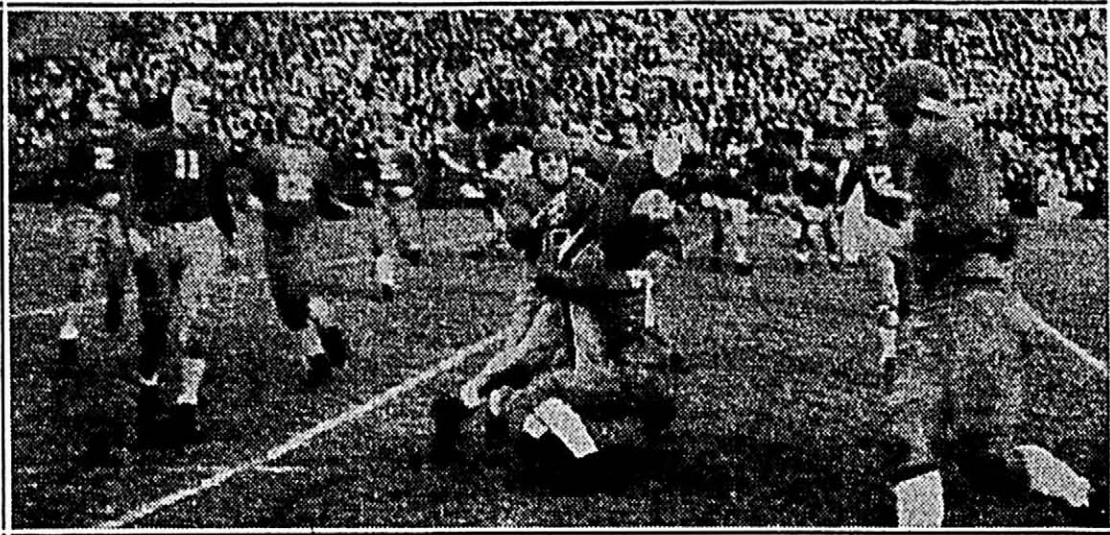

An Intramural League in softball, between different faculties and years will probably commence about a week after the registration date. For those participants who play a better degree of ball a McGill representative team has been entered in the Montreal Intercollegiate Softball League. This league embraces squads from Sir George William's College, Dawson, McGill and possibly University of Montreal. If the interest is sufficient McGill will enter two squads in the league. The schedule will commence about June 15 and practices will be held on the Upper field at Molson's Stadium. No manager or coach has as yet been appointed in this sport.

BASEBALL

For those interested in baseball, McGill will present a representative squad which will play at least once weekly and on occasion twice. Due to the retirement from the newly formed Provincial Senior Intercollegiate Baseball League, of the University of Montreal and the Sir George Williams team as well as the possible withdrawal of the Loyola squad, McGill was left with a team and no league to play in. Attempts were made to enter various city leagues, but it was found that it was unable to obtain a franchise. However, signifying their intention of maintaining a squad, both the University and the various participants have decided to draw up a schedule of exhibition matches which will provide them with at least one and perhaps two games weekly.

There is also the possibility, remote though it may seem, that a league with entries from Dawson, Loyola, Town of Mount Royal (Intermediate) and McGill may come into existence in the near future. In any case the local team has been practising regularly and play exhibition matches with Town of Mount Royal Seniors and Loyola in the near future. Definite news as to the formation of this league (Continued on Page 10.)

REMEMBER THE VARSITY GAME

One of the spine-tingling thrills of the past sports season was the spectacular win of the McGill grid team over Warren Stevens' Varsity aggregation. Although our photographer failed to snap Greenburg's memorable touchdown he did catch GUS SUMMERSKILL stopping a Toronto rush dead in its tracks. Atta boy, Gus.

Special Athletics Report Given to Advisory Board

The report on the Athletic set-up at McGill University which has been compiled over the past winter by a special committee of the Students' Executive Council has at last been referred to the Athletics Advisory Council for further study.

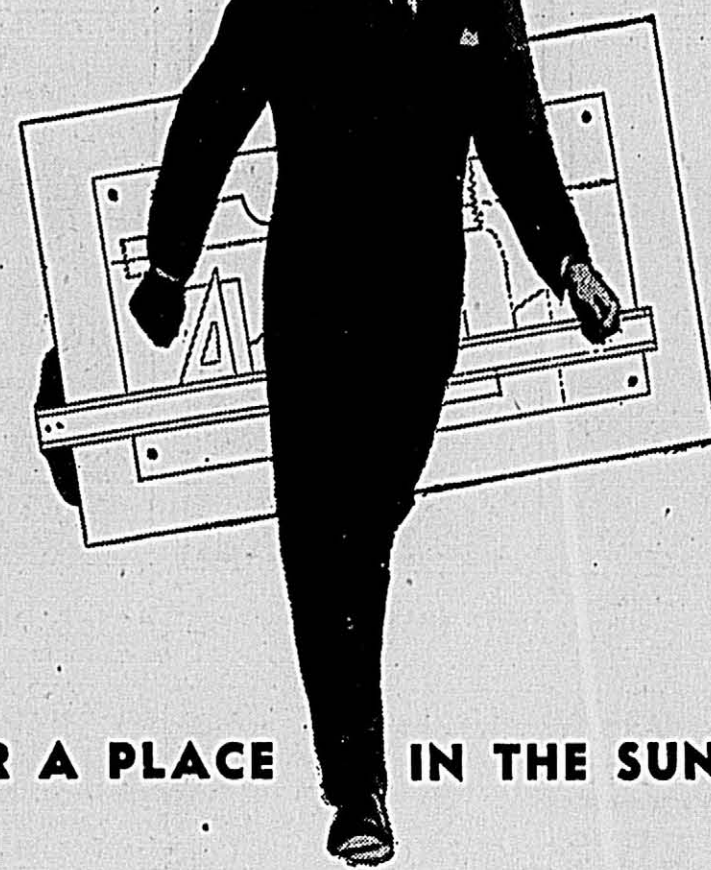

Although the Committee in charge felt that it would be

premature at this stage to release the actual contents and recommendations contained in the report, the general nature of the study was disclosed.

The report dealt with the past history of sports organization at the University and the present set-up and presented recommendations for the future. A great deal of helpful advice and information was obtained from all members of the staff of the University in the actual preparation.

Man with a Plan

FOR A PLACE IN THE SUN...

Without a plan, success in any undertaking is a fluke.

You know, too, that post-war living is going to be a harder, tougher proposition than in the old days.

Now, more than ever, you need a plan in your personal and business life... a plan which you will pursue with courage, determination and plain hard work.

In all this, the financial angle will be a big factor and a sound financial counsellor a useful ally.

You can find this very ally in the manager of your nearest B of M office. Drop in and talk over your plans with him in confidence. You will like his helpful attitude.

ALL-STAR

Fleet-footed halfback of the Red grid squad, MURRAY HAYES, whose play throughout the season rated him a position on the all-star team. (Daily Photo)

London Contest Turning Point In Red and White Grid Season

When they start picking the turning point in the 1945-46 intercollegiate grid season, to most observers the tide of fortune engulfed the Red and White gridriders in the second tilt of the season played against Western in the latter's home balliwick.

Early in the fray, the Redmen, who had sustained a 20-7 defeat the week previously against the same Mustangs, rolled down to the Metras men's five-yard line and had three plays to hit pay-off territory. Somewhere along the line, something went haywire and the London aggregation stiffened to thwart the McGill offensive.

Then, tacked on to this setback, Fabian Curry snagged a lateral from Hayes intended for Johnny Porter and in a million to one played galloped over for the opening score of the game. When the half ended, the Redmen were on the short end of the count and despite the fact that they shoved the Western outfit all over the grid-

iron in the last thirty minutes of play, they were unable to cop the laurels.

Foiled By Fate

Fate seemed determined to rabbit punch the Redmen out of contention for in their next game played against the Galloping Gaels from Kingston, Murray Hayes headed goalwards with nary a Queen's man in sight only to slither in the muddy field and be tackled 24 yards from the promised land. Had the fleet-footed Mr. Hayes gone over, the score would have wound up in McGill's favor.

In some respects at least the sores of defeat were salved by the spectacular win over Warren Stevens' Toronto grid squad. The game resolved itself into rubber-armed Mel Lawson versus Doug Kerr's pass defence and Kerr's defence won out. Twenty-seven passes were tossed by the Queen City crew but only a fraction were completed. Backed up by the sensational touch-

(Continued on Page 10.)

DAVE AND DAVIES

What were originally new faces on the McGill sports season this year have now become old familiars. DAVE CAMPBELL piloted his Redmen through to an impressive championship win in the Intercollegiate loop while LOU DAVIES' hoopsters had a successful cage season. (Daily Photo)

Academy Award Performance

Ice Title Most Dramatic Event Of Intercollegiate Sport Season

Odds on choice as the most dramatic and memorable event of the 1945-46 Intercollegiate sports whirl in the minds of most fans was the spectacular manner in which Dave Campbell's ice sextet copped the honours as they bounced back from the brink of oblivion.

The gloom of the second period pall hanging over the Forum when Ace Bailey's Toronto Blues hit town for their regular schedule encounter with the Redmen was thick enough to cut through with a knife. The Queen City crew led 3-1 at the end of the middle stanza and had a wide edge in territorial play. McGill faced with the necessity of winning this tilt to end up in a tie for first place since Bailey's

boys had trimmed them in Varsity arena the week previously.

Faint Hopes

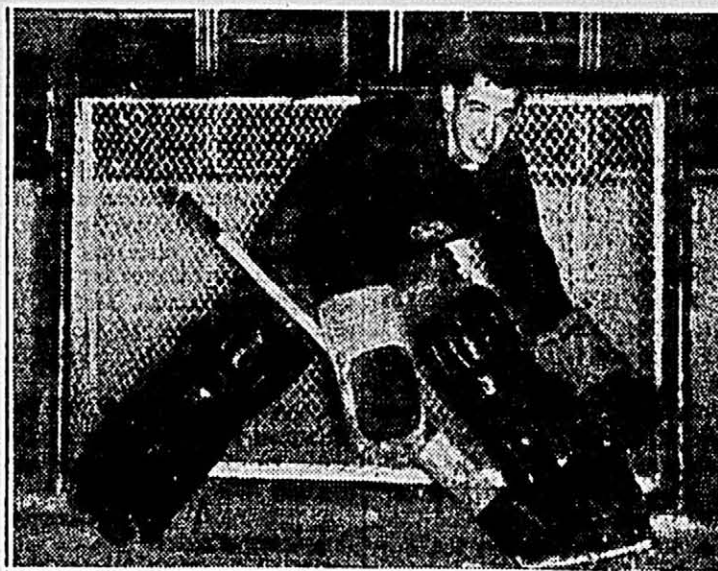

The faint hopes of the Red and White supporters grew even weaker in the opening movements of the third period when Toronto added another tally to make those lights read T 4, M 1. But then, that certain spark, an indescribable lift pulled the McGill crew out of the bog of defeat onto the gleaming heights of victory.

Johnny Peirson started the ball rolling with a fluky goal that deflected in off the Toronto goaler's stick and from there on in there was no holding the Campbell clan. When the dust had settled (what dust is doing on a rink we're not (Continued on Page 10.)

STARRED IN ALL

JACK GELINEAU, the backbone of the McGill hockey team, who proved to be the deciding factor along the championship trail. (Daily Photo)

Basketball Team Breaks Even In Scheduled Season's Play

Well, the basketball team did not win any championships during the past season nor did they take any top honors, individual or otherwise, but they did establish for themselves a respected name.

Davies Coaches

Coach Lou Davies, himself a novel local fixture, had a unique task on his hands. He was presented with a collection of eager ball players, but few of which had ever played together before. From such a heterogeneous group, Lou moulded a contending aggregation, with cooperation as the keynote. At the forward slots, Captain George Davidson, Dave Greenberg, Sam Roth and lanky Ron Bower were the luminaries, while youthful Pete Finlay and steady Ken Hoyle were the guard standouts.

The team's record in the intercollegiate loop, which, after all, was their main interest, was an even 3-3 standing. The Queen's cagers were twice victims, while the upset victory over the strong Toronto squad completed the credit

side of the ledger. The championship Western team and the Varsity crew provided for the losses.

Better-Than-Average

In the local M.B.L. league, Davies' Dipper Dappers fared equally well, even more so. They won all but two of their scheduled games, the defeats coming at the hands of the powerful Y.M.H.A. team. In the two Athletic Festivals, they also batted .500, losing out to Clarkson while winning over Middlebury.

Thus, generally speaking, the team fared better than even—stephen, a record which does not definitely bear shame.

If we had a glass of the appropriate liquid in our hand, we would raise to a toast to the 1945-46 edition of the basketball team, from Lou Davies right through to the three or four managers, but since, unfortunately, we do not have any of said liquid, we take it upon ourselves to congratulate the fellows on a swell season, and to wish them all the success in the coming season.

against Canadian universities. With Pete Landry paving the way, the Squash team gained its Intercollegiate laurels against Western, while the Badminton and Tennis teams netted clear-cut victories over their collegiate rivals.

It was a very successful year insofar as these "minor sports" were concerned, and with one year's experience beneath their belts it is safe to predict that next year will see even greater victories.

"Does it make any difference on which side of you I sit?" asked the sweet young thing.

"Not a bit, I'm ambidextrous." —The Silhouette

'46-'47 Football Schedule

TWO SPORTS

That's BOB BARTLETT and DICK PENNYFATHER looking at you, folks. Both these lads earned letters in track and football with Bob being rated good enough in the grid game to cop an all-star C.P. rating. (Daily Photo)

Science Squads Annex Crowns To Become Intramural Champs

This year marked the return to the peace-time intramural athletic program but interest was at the same high pitch evident during the war.

The softball schedule provided close play and great interest. Twenty four teams started the schedule and at the end of first round play all but eight were eliminated. Arts and Science 3 and 4 led the loop and finally walked off with the crown swamping Engineering 3 in the final game by 15 runs. Led by the able pitching of Eli Solomon, the Artsmen' Murderer's Row of Knight, Sheppard and Bloomfield were undefeated during the season.

SCIENCE WINS

In basketball, Science 3 and 4 were also supreme. Led by Victor and Climan the squad went through the season undefeated and polished off Physical Education and

Commerce 3 to win the title. The boys from Physical Education evened up the score with the boys from third and fourth year Arts and Science as they defeated the hitherto undefeated team in volleyball to win that Intramural Championship. This sport got off to a bad start but at the end of the year had reached a fever-pitch.

TRACK CHAMPS

Arts and Science came to the fore again as the Scientists walked off with a clean-cut victory in track followed closely by the boys from Medicine. Pennyfather, Lefcoe and McDowell led the victors while Gillespie, Brewerton and rider led the Medics.

In the years intramural puck loop Commerce won the crown for the second year in a row. Led by McCance, Hayes, Frank and Porter the Accountants defeated the Engineers for the crown.

RED CAPS

JOHNNY HALL and ALAN MANN are the captains of the Red grid machine. Johnny was the squad leader during the past season while Alan will be field director of the Redmen in their title quest this year. (Daily Photo)

LETTER MEN

And two more. DAVE GREENBURG who starred at football and basketball while DOUG HERON made the senior squads in football and hockey. (Daily Photo)

Skating was The Big One

McGill Gains Championships In "Minor" Sports Competition

When the observer looks back on McGill's athletic successes during the past school year, he cannot help but see how many of the so-called "minor sports" championships came this way. Heading the list of these "lesser" teams was the star-spangled ski squad which zoomed into international fame when it walked away with a clear-cut victory at the Dartmouth Carnival last winter. Following in the same style the McGill Boxing and Wrestling team emerged victorious in the first post-war Intercollegiate Assault at Arms. In like manner, the Water-Polo, Squash, Badminton, and Tennis teams all won Intercollegiate championships, while the Weight-lifters won a city championship for the first time in many years.

Skiers' Successes

The Ski team, under the leadership of captain Kaar Olsen, won the first Dartmouth Carnival championship for McGill in twenty years over a field of the best collegiate skiers the continent has to

offer and gained for its alma mater considerable publicity in some of North America's greatest newspapers. At Kingston the Boxing-Wrestling team came through with a close victory over the second-place team from the Ontario Agricultural College and left the squads from Toronto and Queens far behind. Of this team two boxers, Dave Common and Bob Bassett, and three wrestlers, Sherry Raymond, succeeded in winning individual championships.

What Next?

Captain Geoff. Ince led his Water-Polo team undefeated through the Intercollegiate schedule and only one game was lost in the entire year's play, an exhibition match against the star-spangled Knights of Columbus squad. The Swimming team made two trips to Amherst and to Dartmouth where they bowed before superior American teams, but emerged fairly successful in its competition

Spoken By A Trackman

No Let Up in Continual Practices As Trackmen Prep for Meets

(The following report on the doings of the McGill track team for the 1945-46 season was written by a veteran member and influential personality on the team. It deserves every bit of the reader's attention for the writer knows whereof he speaks.)

Track and Field enthusiasm seems to be receiving the encouraging support it deserves. For many weeks now, a group of faithfuls have been out on the track training religiously through snow, rain or shine. Not only has their own keenness served to increase their efficiency tremendously, but it has also set the example and provided the incentive to bring out other reticent athletes.

McGill has long relied on her proven stars in the track realm; but more and more it is being realized as that nucleus contracts, that newstars must be trained and coached, encouraged and developed. Only through the discovery

and development of new material can McGill hope to recapture her once undisputed superiority in this division of athletics.

Regular Training

For some appreciable time now regular training periods have been held daily between 4.30 and 6.00 p.m. This schedule will be maintained throughout the summer under the supervision of Coach Hugh Borsman, substituting for Coach Van Wagner. Many meets are in the offing and it is gratifying to see new faces appearing for practices. No places on the team are assured to any one unless he can prove his worth. It is hoped that all students interested, whether currently attending McGill or proposing to attend next year will avail themselves of the opportunity offered.

Weekly meets are to be arranged against the newly formed Montreal Track Club, an up and coming organization, and Dawson Col-

CROWD—p. 3

W. L. Mackenzie King, Prime Minister; and Hon. Brooke Claxton represented Rt. Hon. J. L. Isley, acting Prime Minister.
The directors of the Royal Bank attended the service in a body, together with members of the Executive Board, the head office staff and managers and other representatives from the branches, and representatives of the bank from outside the city.

The University closed at one o'clock in order that all those connected with it might join in paying tribute to the late Chancellor.

The Board of Governors of McGill University was represented by Dr. F. Cyril James, principal and vice-chancellor, W. M. Birks, Dr. John W. Ross, Huntly R. Drummond, J. W. McConnell, Walter M. Stewart, Dr. W. W. Chipman, Arthur B. Wood, Paul F. Sise, Hon. A. K. Huggessen, Col. A. A. Magee, Dr. C. W. Colby, Walter Molson, Dr. George F. Stephens, John C. Newman, George W. Spinney, Ross Clarkson, D. C. Coleman, J. D. Johnson, C. Gordon Gale, Charles F. Sise, James Wilson and Fraser Keith.

Members of the McGill Senate: Deans: Dr. Cyrus MacMillan, Dr. J. C. Meakins, Prof. C. S. Le Mesurier, Prof. J. J. O'Neill, Prof. W. H. Brittain, Prof. Douglas Clarke, Prof. A. L. Walsh and Prof. D. L. Thomson; Dr. Muriel W. Roscoe, Warden of Royal Victoria College; Dean Sinclair Laird of the School for Teachers; Group chairmen, Prof. J. L. Darbelnet, Prof. J. P. Day, Prof. A. H. S. Gillson and Prof. H. E. Hoff; and the following elected members from the staff: Prof. E. R. Adair, Prof. T. H. Clark, Prof. G. L. Duff, Prof. E. S. Mills, Prof. C. V. Christie, Prof. F. M. Wood, Prof. F. R. Scott, Prof. W. D. Macfarlane, and T. H. Matthews registrar.

W. Bentley, bursar and secretary of the university, was among the large delegation present from the administrative and workers at the university who had a high regard for Mr. Wilson.

Alex Ross, president-elect of the Students Society officially represented the student body while Brian Doherty, chairman of convocation activities committee of the graduating class represented the class of 1946. A large number of students, who desired to pay tribute to the late Chancellor personally, was seen attending the service in the Church and many more waited outside. The burial took place in Mount Royal Cemetery.

LONDON—p. 9

down of Dave "Duke" Greenburg on a never to be forgotten "vengeance" play, the Redmen won the contest and in some quarters at least when McGill beats Toronto it's a successful season.

No Predictions
The prospects for next year is full of "ifs" and "buts" at this stage of proceedings. With Doug Kerr at the helm, the Redmen will be assured of a well-coached, well-trained team. The bane of the abbreviated schedule will have been removed but in the final analysis, it will all depend on the lads who sport the football togs for the various colleges.

Western is hardest hit by graduates but had ample reserve material and will undoubtedly prove to be tough to knock out of their championship spot. Toronto has come up with several new players while the recent appointment of an American coach at Queen's signifies that the football team will not be content to be the doormats of the league. However, Doug Kerr for the first time in history has come out publicly with a prediction of a championship. Time alone will tell.

PRACTICES—p. 9

lege. These should prove an adequate preliminary warm-up for the Quebec Provincial Meet on June 22, the Ontario Provincial and the Dominion Track and Field Championships at Hamilton on July 6.

Recent Successes
The recent success of the relay team at Hamilton, where McGill added the Intercollegiate Indoor title to their earlier Outdoor crown, gave the tracksters a great shot in the arm. The boys are now aiming at the Dominion laurels and may well prove themselves the greatest threat amongst the nation's topnotchers.

Such die-hard enthusiasts as: Ed Ballon, last year's captain, distance man and Maritimes mile champion; Andy Gillespie, new captain, quarter and half-mile star, holder of the Intercollegiate half-mile as well as the British Columbia and Pacific Coast titles; Fergie MacDowell, quarter-mile and start man of the relay team; Dick Pennyfather, 220, quarter-mile and relay man; Derek Brewerton, relay, cross country and holder of the Intercollegiate hurdles title; Neville Lefcoe, high jump champion.
These men form a proficient

Time and Tide

It is all over . . . for us, at least, who are leaving McGill for the Summer, and for us who are leaving it for good. There are regrets, and pleasant memories, for those who have written this column, almost every day, during the past session. We enjoyed writing it, and hope that it interested you, perhaps even pleased you.

All year we have waited for letters of censure or encouragement. Criticisms would have been welcome. As it was, we did not know if anyone was reading our column. Blindly hoping, we wrote on, always hoping to receive some indication of who read Time and Tide, and what they felt about it.

There have been no definite plans for next year, but Time and Tide might not be continued. The purpose of the Feature Page, is primarily, to print the work of student contributors not editorials. There will be more music and drama features next year, more advance notices. It is hoped, that next year, the Feature Page will be a convenient guide to dramatic and musical events in the city.

Time and Tide was begun in September 1944, by the then Feature Editor, Victor Goldbloom. It was continued this past session, by the Feature Staff. Now, that it seems to end, in May 1946, we say Good Bye, and thank you if you have read the column. And again, we hope to hear from you next year, of not about Time and Tide, then about anything on the Feature Page. Suggestions, criticisms will always be welcome.

A pleasant summer to all . . . To the Graduating Class, all possible luck . . . to the others, au revoir until September.

Time and tide wait for no man . . . and we move on.

K.C.

Prof. J. Darbelnet To Leave McGill

A faculty change announced recently is the loss of Professor J. Darbelnet, of the French department, and chairman of the department of Romance languages of McGill, to Bowdoin College, Brunswick, Maine. He will leave McGill at the close of French summer school, of which he is director.

Professor Darbelnet was born and educated in Paris, nad is a graduate of the Sorbonne. He subsequently taught at the Universities of Wales, Edinburgh and Manchester, in Paris, at Bowdoin College to which he is now returning, and at Harvard University.

Appointed to the faculty of McGill in 1939, he did not arrive here until 1940 due to the mobilization of the French army.

nucleus, but only through the whole hearted support and earnest endeavour of others will Track and Field achieve its natural destiny at McGill next year.

ICE TITLE—p. 9

very certain about.—Ed.) those same lights gleamed out a triumphant T 4, M 5.

The rubber match played between these teams came as a sort of anti-climax to this spic. Once again most of the action was centered in the third period. For the first two stanzas the Varsity aggregation carried the play despite extremely close checking the McGill outfit. Twice in the middle frame, pucks seemed to be deflected off posts.

All Out.
In the third period, the Old Sergeant, Dave Campbell, pulled the wraps off his crew and sent them out in a burst of brilliant speed

to rack up the win. With Peirson sitting it out in the cooler, Jimmy O'Connor broke away from a Toronto gangling attack and rode in all alone on Ball in the Toronto cage. The blond haired cage custodian shifted to the right but his foeman who also sports a thatch of blond hair shifted just a little sooner and a little more deftly to pot the rubber home. With this tally breaking a 0-0 deadlock, O'Connor repeated his effort on almost the identical play a few seconds later and Johnny Peirson added the third one in a wild race for the puck with the Toronto netman.

Each side scored one more but when they came around to counting up the chips, McGill had notched the win and championship.

ATHLETICS—p. 8

will be available within about ten days.

Track and Field
Offering another outdoor activity for the summer the Athletic Department has completed plans for track and field events in actual competition. Arrangements for the use of Molson's Stadium have been completed and six meet are scheduled for the semester. Taking on the coaching chores for the summer Hugh Borsman, McGill Med student, has arranged for entries in the following track and field events:

1. The Montreal Track and Field Club plan to hold weekly handicap meets on the McGill track commencing Wed., June 12th.
2. Provincial Track Championship—June 22th.
3. Dominion Championship, Hamilton—July 6th.
4. International Meet at Molson's Stadium—Saturday, Aug. 3rd.
5. It will be possible to enter events in the Police Meet—July 27th.
6. Senior Intercollegiate Track Meet at Toronto—October 26th.

TENNIS
The McTavish Tennis courts will be opened to the use of all students in session, with the only requisite being registry at the Athletics office before the 30th of June. Competition has been arranged but no definite meets can be scheduled before the number of participants is ascertained.

GOLFING
Golfing will start under way as soon as registration at the Athletic Office is complete. The number interested will of course govern the actions of the Summer Athletics Supervisor.

ROWING
The McGill Rowing Club has been revived, after a wartime lapse, and is already practising daily. Facilities are available at Lachine and manager D. W. Heustis, EL. 2233, as well as assistant manager E. D. Gordon, WE. 1715, have completed arrangements that will give those interested in rowing an opportunity to participate. Events and meets will be scheduled at the first opportunity after registry.

YACHTING
Those students interested in sailing and yachting will be admitted by selection to the St. Lawrence Yacht Club at a special fee of five dollars. It is understood that the summer program will coincide with that of the Yacht Club.

M.O.C.
The reorganization of the McGill Outing Club for summer activities will be hailed by all students who enjoy rock-climbing, cycling, canoeing and horseback riding. Plans for trips and weekends will be worked out by members themselves and will be executed with the aid of some of the more experienced students. Harold Ames, LA. 2088, and Gord Lindsay, MA. 4902, will furnish the contacts between the members and will help coordinate activities. All McGill students are eligible to become members of the M.O.C.

SOCCER
An Intramural setup for a soccer league has been organized for the

summer. Participants will join teams in their faculties or years and will commence playing league tilts as soon as the squads are complete. It is possible that a representative McGill team may be formed in soccer if sufficient material is available. If this should take place the University would seek an entrance in one of the city leagues. However if such a franchise is unavailable a series of exhibition games will be drawn up.

GYMNASIUM
In addition to all these athletics for which plans have already been formulated McGill University offers the use of the gym Monday through Friday from 9.00 a.m. to 9.30 p.m. and Saturday from 9.00 a.m. to 1.00 p.m. Encouragement will be given to those who wish to play basketball, squash and badminton. Competitions will also be arranged on request for those who wish to do weightlifting, gymnastics, boxing or wrestling.

Any inquiries may be directed to the summer director of Athletics Ed. MacLaughlin or to his assistant M. Hennigar at the Sir Arthur Currie Memorial Gymnasium or by phone at PL. 4488.

WALKER—p. 5

Regiment throughout the Normandy campaign when he earned his award of Distinguished Service Order. As a civilian he is now practicing law in Montreal.

Speaking of the future plans for the C.O.T.C., Lieut. Colonel Walker said that the new staff composed mostly of relatively young veterans would be ready to start on the training syllabus in the session commencing next fall. He anticipated that many veterans and other students will wish to join this reserve force of Canadian Army that will qualify them to hold commissions in any arm of the service in which they wish to specialize. He also mentioned that post war plans call for a three months summer camp period to start in 1947 which will allow students to earn enough during their instruction.

Another new feature will be a system of combined messing for officers and cadets who will be qualified for direct commissions into the Army in the event of war.

GIFTED GRADUATES

Gladden Their Hearts to the "N'th" Degree!

Flowing black gowns . . . mortar boards . . . convocation speeches . . . be-ribboned diplomas . . . flowers . . . farewells to college chums . . . AND A NEW LIFE AHEAD!

They have earned their new degrees, and your graduation gift should be one fitting to the importance of this great occasion. EATON'S suggests a few which will be lasting reminders of the "good old college days" at McGill.

Master Gifts for
"BACHELOR" BOYS

Solar Watch—A man's watch of precision for important days ahead. We sketch the Solar "Aqua," by Rolex, 17-jewel, proof against water, dust, shattering. It is anti-magnetic and has a sweep seconds hand and a stainless steel case. 37.50. Other Solar watches from 17.50 to 37.50 at EATON'S Watch Counter, Main Floor.

(This merchandise subject to 25% Excise Tax.)

Master Gifts for
"BACHELOR" GIRLS

Solar Watch—"A time to remember" if you give her a 14-kt. gold watch. Sketched is Solar's newest for the ladies (45.00). 17-jewels, as small as a wink in rose coloured 14-kt. gold with a slim wristband. See the EATON'S Jewellery Dept. Main Floor, for other Solar lovelies for ladies from 20.00 to 175.00.

(This merchandise subject to 25% Excise Tax.)

SIGNET RING—If he hasn't got a signet ring, this is the ideal occasion for one. EATON'S Jewellery Dept., Main Floor, has a large selection of 10 karat gold, in square, oblong, oval or modernistic designs, suitable for engraving with the family crest or monogram. From 10.00 to 35.00. Sketched is classic design at 15.00.

(This merchandise subject to 25% Excise Tax.)

Compact Beauties—If "in sight" is "in mind" one of EATON'S Compact Bar, Main Floor, vanities will constantly remind her of The Day and You. We sketch one in sterling silver, hand-engraved (15.00), which will take readily to further engraving. In many shapes and sizes, they come in various metals from 3.40 to 15.00.

Fitted Case—He can "go far" with this kit, neatly fitted with toilet accessories. Sketched is a pigskin beauty, slide fastened, at 18.50. We suggest you inspect the wide assortment at EATON'S Leather Goods, Main Floor. From 6.12 to a super-chrome fitted model at 43.95. (Two initials are included without charge on purchases of over 10.00.)

Tennis Racquets—Summer's ahead, with time for sports. We chose one of our nylon strung racquets at 10.90 as an enchanting thought for the gal who plays for the "love" of the game. See the racquets at EATON'S Sports Centre, Fourth Floor, 5.49 to 20.00. Tennis balls, .50.

Golf Bags—If he is a good "sport," we prophesy that he would appreciate a new golf bag to house his favourite clubs. The Sports Centre, Fourth Floor, suggest the model sketched at 16.50 of durable canvas and leather. The selection of EATON'S ranges from canvas to all leather. 5.25 to 27.50.
